FIRST AID

IF ON SKIN OR CLOTHING: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.
DO NOT USE ON CATS OR KITTENS. Use only on adult dogs. Do not apply to puppies under 6 months of age. Consult a veterinarian before applying this product on medicated, debilitated, aged, pregnant, or nursing dogs. Sensitivities may occur after using any pesticide product for pets. If signs or sensitivity occur bathe your dog with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

This product contains a combination of ingredients that provide rapid knockdown and kill of the listed insects. This highly effective water-based formula can be used on dogs.

The combination of ingredients in this product kills adult fleas and ticks on contact. The first active ingredient is the botanical, Pyrethrum, an extract of a Chrysanthemum flower, which provides effective knockdown and quick-kill of listed insects. The second active ingredient is Permethrin, a synthetic pyrethroid, which gives residual long term control of fleas. The third active ingredient is Nylar®, the insect growth regulator which inhibits the development of the immature stages of the flea for 3 months preventing them from reaching the adult stage. Nylar® is similar to insect growth hormones that occur naturally in insects.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE
PRECAUTIONS AND RESTRICTIONS:
DO NOT USE ON CATS OR KITTENS • For indoor use only. • Do not apply this product in a way that will contact children or adults, either directly or through drift. • Do not allow children or adults to enter until sprays have dried. • Do not use treated article until spray has dried.
USE ONLY ON DOGS. DO NOT EXCEED THE NUMBER OF PUMP SPRAY ACTIVATIONS APPROPRIATE FOR THE DOG'S WEIGHT.

Body Weight of Dog. / Maximum Number of Pump Sprays to Apply per Dog.		
5 lbs.....4 pumps	30 lbs.....24 pumps	60 lbs.....49 pumps
10 lbs.....8 pumps	35 lbs.....29 pumps	70 lbs.....57 pumps
15 lbs.....12 pumps	40 lbs.....33 pumps	80 lbs.....66 pumps
20 lbs.....16 pumps	45 lbs.....37 pumps	90 lbs.....73 pumps
25 lbs.....20 pumps	50 lbs.....41 pumps	100 lbs.....82 pumps

FOR USE ON DOGS: Spray animal with spray nozzle about 8–12 inches from the pet. Start spraying animal at the tail, making sure to spray entire coat of the animal, including legs, tail, and underbody. With your hand, fluff hair against the way it normally lays to ensure the spray penetrates through coat to the skin. Refer to chart above to apply the appropriate amount of product to animal. Do not exceed the maximum number of pump spray applications for animals body weight. Do not saturate the animal and do not spray in face or eyes or on genitals. Repeat as required, but not more often than once every 14 days (2 weeks).
FOR USE IN DOG AREAS: Treat dog bedding and other pet resting places, as these are primary hiding areas for fleas and ticks; no need to remove pet bedding after treatment. To reduce infestation, spray around sleeping areas, baseboards, window and door frames, wall cracks, local areas of floors, and other resting places until the surface is slightly moist. Also spray the entire inside surface of dog houses and kennels. Do not allow pets to use treated areas until completely dry.
For best results, to protect your pet against and to minimize reintroduction of adult fleas from outdoors, use EPA registered flea and tick products, flea or flea and tick collar, pet powder, pet spray, pet dip, pet shampoo, flea shampoo or flea and tick pet shampoo.

STORAGE AND DISPOSAL

Storage: Store in a cool dry area. Keep container closed.
Disposal: *If empty:* Do not reuse this container. Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
