LAWN WEED KILLER
WITH TRIMEC

CONTROLS: DANDELIONS, CHICKWEED, KNOTWEED, PLANTAIN, HENBIT, SPURGE
and many other broadleaf weeds.
One quart covers up to 12,800 square feet.
--KEEP FROM FREEZING--

ACTIVE INGREDIENTS:
*Dimethylamine Salt of 2-(2-methyl-4-chlorophenoxy) propionic acid ................. 10.60%
**Dimethylamine Salt of 2,4-Dichlorophenoxyacetic acid .................................................... 3.05%
***Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid) ............................................ 1.30%

INERT INGREDIENTS: ........................................................................................................ 85.05%
TOTAL: .................................................................................................................................... 100.00%

THIS PRODUCT CONTAINS:
*0.75 lb. 2-(2-methyl-4-chlorophenoxy) propionic acid equivalent per gallon or 8.76%
**0.22 lb. 2,4-Dichlorophenoxyacetic acid equivalent per gallon or 2.53%
***0.093 lb. 3,6-dichloro-o-anisic acid equivalent per gallon or 1.08%
**Isomer Specific by AOAC Method 6 DO1-5

KEEP OUT OF REACH OF CHILDREN
CAUTION

See Side Panels for Additional Precautionary Information.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wear long pants, long-sleeved shirt and shoes when applying this product. Wear face shield or goggles when mixing, loading or applying this product. When using this product, wear long-sleeved shirt, long pants, socks, shoes and rubber gloves. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower. In case of contact, immediately flush eyes with plenty of water; for skin, wash with soap and water. If irritation develops, get medical attention. Avoid contamination of food or feedstuffs.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly, to water, to areas where surface water is present or to tidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target area. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources. Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D and MCPP have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D and MCPP pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

STOP!
READ THE ENTIRE LABEL FIRST.
OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried or dust has settled.

OTHER USE PRECAUTIONS:

Do not apply this product through any type of irrigation system. Do not allow spray to drift onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not pour spray solutions near these plants. Whether using a hose-end sprayer or pressure-sprayer, do not use fine sprays because they can drift and cause damage to nontarget plants. Coarse spray droplets are less likely to wind-drift. Use only lawn-type sprayers. Do not spray on carpetgrass, dichondra, nor on lawns or turf where desirable clovers are present. Do not spray roots of trees and ornamentals. Do not exceed specified dosages for any area; be particularly careful with dripline of trees and other ornamental species. Avoid spraying St. Augustinegrass when temperature is above 90° F and under conditions of high humidity. Under these conditions, some slight temporary discoloration of the St. Augustinegrass foliage may occur. This product may be injurious to St. Augustinegrass, bentgrass and centipede grass in cases of accidental overdose.
WHAT IT IS, WHERE & HOW TO USE IT:

Lawn Weed Killer With Trimec® is a TRIMEC® turf herbicide formulation, a patented combination of three proven weed killers - 2,4D, Mecoprop and Dicamba. Together, they control a wide range of broadleaf lawn weeds. This particular formulation is low in 2,4-D for maximum safety to 2,4-D-sensitive grasses such as St. Augustinegrass, bentgrass and buffalograss. Spraying should be done when broadleaf weeds are small and tender for best results. The maximum application rate to turf is 0.4 pounds 2,4D acid equivalent per acre per application per site. The maximum number of broadcast application per treatment site is 2 per year.

1. Irrigate the lawn 2 or 3 days prior to spraying. Do not spray lawns under drought conditions.
2. Do not water for 24 hours after treatment.
3. To avoid damage do not apply to St. Augustine or centipede grasses while emerging from winter dormancy. Damage may also occur on these grasses if temperatures drop below 45°F within 72 hours of application.

ST. AUGUSTINEGRASS, BENTGRASS & BUFFALOGRASS: Mix 1 fl. oz. in 1 gallon water and uniformly spray 400 square feet. If necessary, repeat treatment in 2 to 3 weeks if hard-to-kill weeds persist. Do not use on Floratam or other improved varieties of St. Augustinegrass in Florida.

BERMUDAGRASS, BAHIAGRASS, BLUEGRASS CENTIPEDEGRASS, FESCUE & RYEGRASS: Mix 11/2 fl. oz. in 1 gallon water and uniformly spray over 400 square feet. On hard-to-kill species, or on older weeds, mix 2 fl. oz. in 1 gallon water and spray on 400 square feet.

Hose-End Sprayer Instructions:

Use a hose-end sprayer designed for lawns. Put recommended amount of chemical (Column 1) in bottle and add water to indicated level (Column 2) and apply spray uniformly to area indicated (Column 3).

STORAGE AND DISPOSAL

STORAGE: Store in original container in a locked storage area inaccessible to children or pets. Keep from freezing. To prevent cross-contamination, do not store near other herbicides, fertilizers, insecticides, fungicides, or near seeds.

PRODUCT DISPOSAL: Securely wrap original container with unused product in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty container. Rinse thoroughly before discarding in trash.

LIMITED WARRANTY AND DISCLAIMER.

The manufacturer warrants only that the chemical composition of this product conforms to the ingredient statement given on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use. THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE EXPRESSLY DISCLAIMED. This limited warranty does not extend to the use of the product inconsistent with label instructions, warnings or cautions, or the use of the product under abnormal conditions such as drought, excessive rainfall, tornados, hurricanes, etc. These factors are beyond the control of the manufacturer or the seller. Any damages arising from a breach of the manufacturer's warranty shall be limited to direct damages, and shall not include indirect or consequential damages such as loss of profits or values, except as otherwise provided by law.

The terms of this Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements. No employee or agent of the seller is authorized to vary or exceed the terms of this Limited Warranty and Disclaimer in any manner.
