5 Spooky Pests That May Enter Your Home This Fall

Keep Them Away...If You Dare

By DoMyOwn staff

Autumn is upon us. As nights come earlier and the weather becomes colder, spooky pests may appear on your property. These creepy crawlies can send a shiver up your spine and are no treat when inside your home. But there is a light in the darkness-- you can prevent these pests from entering your home and get rid of any that do manage to find their way in. Read below to learn more about how to keep scary pests away from your home this fall.

PEST 1 Spiders

The creepiest of the crawling pests, left untreated arachnids can quickly infest. Spiders quickly create webs in door and window frames that are a fright to walk through. They can also hide inside your home, unexpectedly appearing in bathrooms, kitchens, and crawlspaces.

DoMyOwn's guide on how to get rid of spiders will assist in keeping your home spider free and ourspider control products will

help prevent future infestations.
