PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. Do not apply directly to food. Cover or remove any food or food processing equipment during application. Do not apply while food processing is underway. In the home, all food processing surfaces and utensils should be covered or removed during treatment, or washed with an effective cleaning compound followed by a potable water rinse prior to use. Remove birds and cover fish aquariums before spraying. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow

or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE

1. WHAT IS THIS PACKAGE FOR? This product is effective in killing annoying and destructive insects in the home and garden. For fast acting results, use this product to kill many listed insects. Use this product to kill Fleas and Ticks that exist in and around the home and yard. This product is ideal for treating pets, pet sleeping areas, localized areas of floor and floor covering, closets and along and behind windows, door frames and baseboards.

2. HOW DO YOU USE IT? SHAKE WELL BEFORE USING.

IN THE HOME

To kill crawling insects, spray all surfaces where these insects are found. Spray around walls, baseboards, cabinets, shelves, sinks, etc. and similar hiding places. Treat Ant trails, nests and runs. When possible, spray insects directly. To control House Flies, Fruit Flies, Mosquitoes, Gnats, and small flying Moths, apply and adjust sprayer to deliver a fine mist. Cover and remove exposed food and food handling surfaces. Close windows, doors and shut off ventilation systems. Spray toward center of room to fill room with mist. Use 4 to 5 ozs. per 1,000 cubic feet space. Keep area closed for at least 30 minutes after treatment. Vacate treated areas and ventilate before occupying. Repeat only as necessary to maintain insect control.

TO CONTROL FLEAS INDOORS

Thoroughly apply as a spray for spot treatment to infested areas such as pet beds and resting quarters: nearby cracks and crevices; along and behind window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment of pet areas.

TO CONTROL TICKS

Thoroughly spray sleeping quarters of animals. Spray infested areas around baseboards, window and door frames, wall and floor coverings where localized areas of infestation occur. Applications should be repeated only as necessary to maintain insect control. Fresh bedding should be placed in animal quarters following treatment.

TREATMENT OF DOGS AND CATS

USE ONLY ON DOGS & CATS

To kill Fleas and Ticks, cover animal's eyes with hand and spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose and eyes. Then spray neck, body and legs. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long-haired Dogs and Cats rub hand against the lay of hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets Ticks. Repeat every 7 days, if needed. For best results against Fleas and Ticks on Dogs, the kennels or animal quarters should also be treated.

Do not use on Puppies or Kittens under 12 weeks of age.

Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals.

OUTDOOR USE

As an aid in reducing annoyance from Fleas, Ticks and other listed insects, spray outside surfaces of screens, doors, windows, frames, or wherever these pests may enter the home. Also treat surfaces around porches, in garages, around the yard and other places where these pests may congregate.

VEGETABLES, SHRUBS AND FLOWERS

Hold sprayer 12 inches from foliage and spray to wet plant surfaces. Repeat only as necessary to maintain insect control. May be applied on day of harvest. Apply to plants: African Violets, Azaleas, Begonias, Camellias, Dahlias, Dogwood, Roses, Wandering Jew, Asters, Carnations, Chrysanthemums, Geraniums, Gladioli, Peppers, Celery, Lettuce, Eggplant, Mustard Greens, Kale, Cabbage, Collards, Turnips, Potatoes, Radishes & Spinach.

WASPS, HORNETS AND YELLOW JACKETS

Spray to thoroughly wet nests and these pests on nests. Spray whenever possible, under eaves, into nests, cracks or holes where insects are noticed.

MOSQUITOES

For control outdoors, apply as a fine mist to shrubbery and vegetation where Mosquitoes may rest. Apply around stagnant pools, ponds, swamps and other breeding areas.

HORSES AND CATTLE

To control Horn Flies, Houseflies, Mosquitoes, and Gnats, apply to wet the hair thoroughly with particular attention to topline, underline, flanks, withers and other infested areas. Repeat at 5–12 days for small infestations and only as necessary when insects are in large numbers.

3. HERE ARE THE RESULTS YOU MAY EXPECT! A quick, easy and effective kill of destructive insects in the Home, Garden, on Shrubs, Vegetables, Flowers, and Pets. When used according to directions, this easy to use effective product will rid your home and property of annoying Fleas and Ticks.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in original container. Keep in an area inaccessible to children and pets.

PESTICIDE DISPOSAL: **If empty: Non-refillable container.** Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partially filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
