# CSI 30-30

MOSQUITO, FLY AND GNAT CONTROL

CSI 4-4 and CSI 30-30 Mosquito, Fly and Gnat Control are synthetic pyrethroid vector control insecticides, NEW from Control Solutions, Inc. The low odor and non-corrosive formula contains permethrin, which attacks the nervous system, and piperonyl butoxide, a synergist that delivers quick knockdown and effective control.

- Active ingredients: Permethrin, Piperonyl Butoxide
- Designed for ultra low volume (ULV) and thermal fogging applications
- Quick Knockdown, long-lasting residual
- Controls mosquitoes that carry and transmit West Nile Virus
