

ACTI-FLEX K9

Acti-Flex K9 is a joint supplement formulated especially for man's best friend. Dogs, like horses, develop many problems with joints in their hips, back and legs. These problems are usually associated with arthritis as they age, breed - specific genetic disorders or joints that they are just plain over used. We took the same scientific research used to formulate Acti-Flex for horses and adapted it to dogs by adding a beef flavor.

DIRECTIONS

For dogs weighing up to 20 lbs., use 3 ml per day.
For dogs weighing 21 to 40 lbs., use 5 ml per day.
For dogs weighing 41 to 70 lbs., use 7.5 ml per day.
For dogs weighing over 71 lbs., use 10 ml per day.
