

Garlic Scentry

Alternative Garden Treatment

- Totally green, organic and non-toxic
- Taste and odor repels deer, rabbits and rodents without harm
- Creates a barrier against mosquitoes, gnats, ticks, fleas and ants
- Garlic Scentry wards off Japanese beetles, aphids and cane borers
- Effective for 10 - 14 days
- Garlic odor dissipates quickly
- Spray on ripened fruit crops to keep birds away
- Does not effect taste of fruit or vegetables
- Spray or soak bulbs prior to planting to eliminate "digging" out of bulbs
- Travels systematically through the plant for root to flower protection
- Non-toxic and safe for use around children, pets and plants
- Garlic Scentry qualifies for the 25B exemption from registration with the EPA under the Federal Insecticide and Rodenticide Act

MADE IN THE USA

Shake well before use. This is NOT for consumption.

Directions for use: Mixing Instructions: Ratio 1:10 parts H₂O (water) safely repels pests by spraying the entire plant until foliage and surfaces are wet. Repeat application every 5 - 7 days for 2 - 3 weeks until control is established. Use every 2 - 4 weeks or as necessary. Avoid use just prior to and during pollination because Garlic Scentry might repel bees.

Pests repelled: Ants, aphids, grasshopperd, spider mites, leaf borers, white flies, Japanese beetles, caterpillars, bollewevils, root worms, slugs, maggots, thrips and more.

Animals repelled: Deer, rabbits, squirrels, moles, groundhogs and more.

Environmental: Just Scentsational represents that this 100% natural product qualifies for 25B exemption from registraion with the EPA under the Federal Insecticide, Fungicide and Rodenticide Act

Storage and disposal: Store in upright position in a dry area inaccessible to children and pets

PRECAUTIONARY STATEMENTS: Caution: Causes eye irritation. Avoid contact with eyes, skin and clothing. Wash with soap and water after handling. **First Aid:** Flush eyes with water and call a doctor if irritation persists.

KEEP OUT OF REACH OF CHILDREN.
