

**SNAP-E
The Ultimate Mousetrap**

The SNAP-E is truly a “better mousetrap.” Easy to bait. Easy to set. Easy to release.

Place the baited SNAP-E near a wall and pull back on the upright bar until it locks firmly in catch. The vertical strike bar travels half the distance of old-fashioned wooden traps. The extra-large trip paddle and strike bar catch rodents from the front, sides and back. To release, simply pull back on the upright bar until mouse is released. Fingers never touch the mouse.

**BIG SNAP-E
The Ultimate Rat Trap**

With the BIG SNAP-E, it’s the end of the road for rats, gophers, chipmunks, ground squirrels and other pesky rodents. The quick response time makes certain that once caught, the rodent stays caught! Two pre-formed holes in the trap base allow for surface mounting. Fingers never touch the rodent.

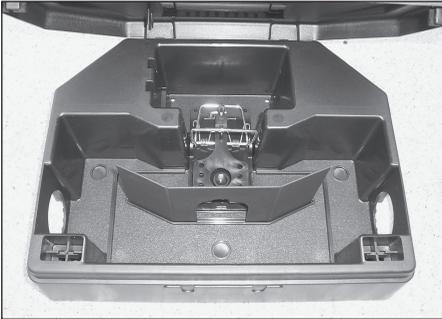

The SNAP-E MOUSETRAP and BIG SNAP-E RAT TRAP are made of durable polystyrene and steel. They both resist stains and odors common in old-fashioned wooden traps, are easy to clean and can be reused for years of service. They are simple, safe and sanitary.

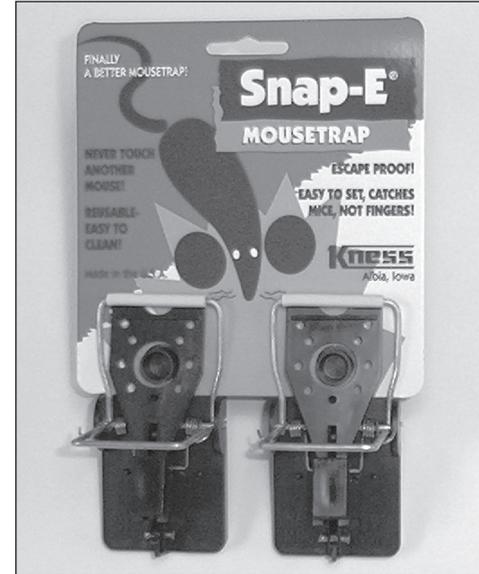

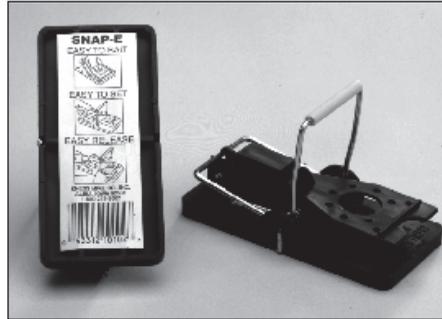

Worldwide Solutions In Pest Control Since 1924™

FEATURE	ADVANTAGE	BENEFIT
Vertical strike bar	Travels half the distance of old-fashioned wooden traps. Quick, clean catch.	Quicker response time. Easy to set. Easy to release rodent. Fingers never touch rodent.
Pre-formed bait cup	Easy to bait. Contains bait in all environments.	Reduces bait stealing. Attracts rodent to ideal strike bar location. Saves time.
Large trip paddle	Reduces premature tripping. Insures catch from front, sides and back.	Provides a sure catch.
Polystyrene and steel construction	Durable. Easy to clean. Resists stains and odors.	Economical and reusable for years of service.
Pre-formed mounting holes in base of BIG SNAP-E	Makes surface mounting easy.	Stabilizes trap in one location.
The Snap-E and Big Snap-E fit in most bait boxes	Rodents and trap are out of sight.	More versatile/excellent in sensitive accounts. (I.E. schools, food plants, etc.)

SNAP-E AND BIG SNAP-E

Big Snap-E shown in AEGIS™ Modular Bait Station.
Aegis is a registered trademark of Liphatech.

EASY TO BAIT

Simply place bait in pre-formed bait cup.

EASY TO SET

Pull back slowly on upright bar until locked firmly in catch. Place trap next to wall near pest activity.

EASY TO RELEASE

Pull back slightly on upright bar until mouse is released.

CONSTRUCTION

Both traps are made of durable polystyrene and steel. They resist stains and odors, are easy to clean and can be reused for years of rodent control. They are simple, safe, sanitary and built to last.
