

Adorn™ FUNGICIDE

Downy Mildew, Phytophthora & Pythium Control

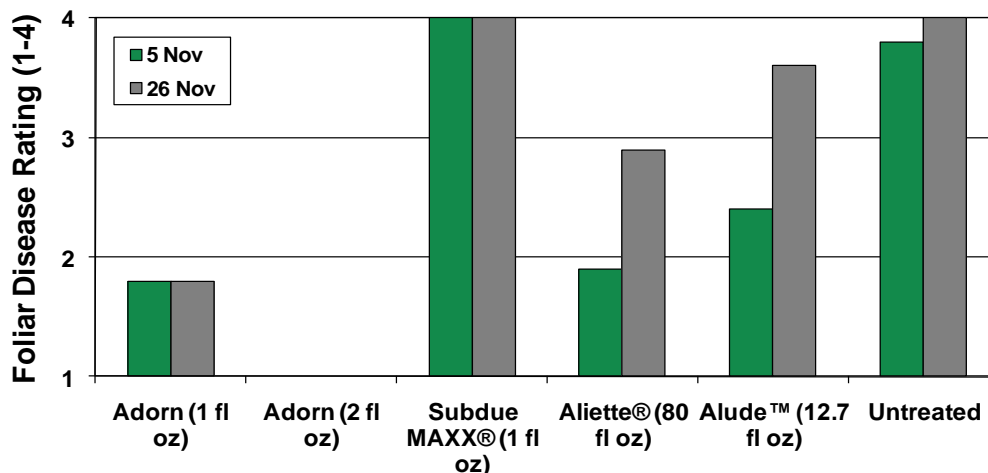

Defeat downy mildew, Phytophthora and Pythium and fight resistance development for ornamental production with the novel mode of action of Adorn™ Fungicide. *Adorn* brings maximum control of diseases, without resistance issues. Plus, *Adorn* is an excellent addition to fungicide rotations and plays a key role in a grower's resistance management program. All with low use rates, too.

Adorn delivers:

- Excellent control of downy mildew, Phytophthora and Pythium
- Novel mode of action
- Resistance management tool
- Must be tank mixed for resistance management

Disease	Application Method & Rate	Timing
<ul style="list-style-type: none"> • Downy mildew • <i>Phytophthora</i> spp. • <i>Pythium</i> spp. 	Drench: 1-4 oz/100 gal	14-28 application day interval
	Foliar Spray: 2-4* oz/100 gal	No more than two apps per cropping cycle
*4 oz spray may be needed as an early curative. Always read and follow label instructions.		

Adorn Delivers Excellent Phytophthora Control

Phytophthora drechsleri, Gerber Daisy

*Plant health ratings: scale = 1-4
1 = healthiest; 4 = dead

M. Benson, North Carolina State University, 2009

Inoculated: 11 Sept; Treatments applied: 11 & 25 Sept, 9 & 23 Oct; *Adorn* & Subdue MAXX: drench. Aliette & Alude: spray
