

Introducing **3 Way Max T&O Herbicide**

from AGRISEL USA, INC.

For selective broadleaf weed control in turfgrasses, including use on sod farms. Controls dandelion, clover, henbit, plaintains, wild onion and many other broadleaf weeds. Also for use on turf, lawns, golf courses, highway rights of way and other similar non-crop areas.

47.3% 2,4D
8.2% Mecoprop-P
2.3% Dicamba

Multi-Purpose Selective Broadleaf Weed Killer

3 Way Max T&O Herbicide controls a wide range of broadleaf weeds in turf, home lawns, parks, athletic fields, golf courses, schools, hospitals and institutional areas. The incorporation of 2,4 D, Dicamba and Mecoprop-P gives a much wider range of broadleaf weed control than 2,4 D alone. 3 Way Max T&O Herbicide controls over 50 different broadleaf weeds and is safe to use on all labeled grasses.

Key Product Benefits:

- Same active ingredients as "Lesco 3 Way," "Trimec" and "Triplet"
- Controls over 50 different broadleaf weeds
- Safe on most grasses
- Low use rate of 1.1 - 1.5 oz. per 1000 square feet, 2 - 2.5 pints per acre, makes 3 Way Max cost effective to use
- Mixes easily and has low odor
- Conveniently packaged in pints, quarts, gallons and 2.5 gallons
