 Formulations**

**Systemic Insecticide**

Agrisel's Acephate PRO insecticides are all high quality cost efficient, low odor, insecticides that control over 125 different insects and can be used in both crop and non crop areas. No need to have any other insecticides because Agrisel's Acephate PRO products have broad label uses and are all economical to use. Acephate is the same active ingredient used in "Orthene".

**Key Product Benefits:**

- **Provides broad spectrum insect/pest control for over 125 different insects**
- **Fully labeled for agricultural, crops, T+O uses and professional uses which reduce the need for duplicate inventories**
- **Superior formulations of 75SP + 97WDG**
- **Convenient packaging - 12x1/lbs + 2x10/lbs**
- **Economical to use and is cost effective**
