

UltraMate SG™

O-0-14 GUARANTEED ANALYSIS

Soluble Potash (K₂O) 14.00%

Sulfur (S) 6.00%
6.00% Combined Sulfur (S)

Nutrients derived from potassium hydroxide, potassium sulfate, and potassium humate

Non-Plant Food Ingredient:

Active Ingredients

Humic Acid* 70.00%

*Derived from Leonardite.

Total Other Ingredients 30.00%

PRODUCT INFORMATION: UltraMate SG is a sulfonated potassium humate granule, which is soluble over a wide pH range of 2.0 to 12.0. UltraMate SG completely dissolves when added directly to liquid fertilizer, micronutrient or pesticide formulations over a wide range of pH values. It allows the user to apply this humate directly into tank mix, drip irrigation and onto acid soil applications unacceptable for conventional products. UltraMate SG provides a concentrated granule that provides flexibility of dry or liquid application, and avoids unnecessary cost of shipping water as compared to liquid humate products. UltraMate SG also allows the user to avoid handling powder and dusty material and the related issues.

DIRECTIONS FOR USE: UltraMate SG can be applied to all crops including fruits, vegetables, trees, vines, flowers, ornamentals, turf, (include lawns, sod farms, commercial properties, athletic fields, golf greens, tees and fairways) grain and other row crops, greenhouse plants and other indoor crops. Application rates and frequency are dependent upon soil and climate conditions present. Typical application rates range from ½ to 3 pounds of UltraMate SG per acre per application (up to 11 pounds per growing season).

UltraMate SG may be applied as a granule, alone as a liquid or with liquid fertilizers. Also, it may be applied through conventional methods but not limited to foliar spray, soil application, drip irrigation, water run or hydroponically. UltraMate SG is not compatible with glyphosate concentrate, but will work with the tank mixes containing glyphosate.

UltraMate SG is best mixed under continuous, mild agitation or circulation and must be added to spray tanks slowly (poured not dumped). When the solution is thoroughly mixed beyond disappearance of granules, it is always good practice to probe the bottom of the vessel for any un-dissolved granules prior to application. When tank mixing with other ingredients, always start with water, UltraMate SG, followed by (in order) fertilizer, herbicide, fungicide, insecticides.

Compatibility can be simply checked by:

- Mixing each product in a clear container in the same proportion to be used in the field
- Agitating for at least 60 seconds
- Visually observing for precipitate

WARNING: Use only as directed

HEAVY METALS STATEMENT: Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.htm>

THE ANDERSONS WARRANTY: Important. Read before use. Read the entire "Directions for Use" and "Warranty Disclaimer and Limitation of Liability" before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Warranty Disclaimer and Limitation of Liability:

WARRANTY DISCLAIMER and LIMITATION of LIABILITY:

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions. Manufacturer makes NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Where permissible, it is Manufacturer's intent to LIMIT ANY LIABILITY FOR SPECIAL, CONSEQUENTIAL OR INCIDENTAL ECONOMIC DAMAGES to refund of purchase price or replacement of product, at Buyer's choice. Manufacturer DISCLAIMS ANY LIABILITY FOR COMPENSATORY OR OTHER DAMAGES ARISING OUT OF ANY USE CONTRARY TO LABEL DIRECTIONS. Use contrary to label directions is not permitted.

LEGAL RIGHTS:

THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS; YOU MAY HAVE OTHER RIGHTS THAT VARY FROM STATE JURISDICTION TO STATE JURISDICTION.

WARNING

MAY BE HARMFUL IF SWALLOWED
MAY CAUSE MILD SKIN IRRITATION
MAY CAUSE EYE IRRITATION
MAY CAUSE RESPIRATORY IRRITATION

PRECAUTIONARY STATEMENTS

Call a poison center/physician if unwell. If skin irritation occurs, get medical advice. If in eyes, rinse cautiously with water for several minutes, remove contact lenses. If eye irritation persists, get medical advice. Wash hands after handling. Use only outdoors or in well ventilated areas. Avoid breathing dust. If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Store container tightly closed. Dispose of contents/container in accordance with national/regional/local regulations.

FIRST AID

If swallowed: If victim is alert and not convulsing, give one glass of water to dilute material. Seek immediate medical attention.

If on skin: Wash affected areas with soap and water. Seek medical attention if irritation persists. Wash contaminated clothing before reuse.

If in eyes: Immediately flush with water for at least 20 minutes. Seek medical attention if irritation persists.

If inhaled: Move victim to fresh air. Seek medical attention if irritation persists.
