Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. You may also call 1-800-858-7378 for emergency medical treatment information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Attracts and Kills All Common Household Ants Including: Argentine ants, ghost ants, cornfield ants, pavement ants, pharaoh ants, acrobat ants, white footed ants, little black ants, odorous house ants, rover ants, crazy ants, big headed ants, and other sweet feeding ants except carpenter, fire and harvester ants.

For Use in and Around: Homes, apartments, storage areas, and mobile homes.

Controlling and Eliminating Ants: First ants will come in large numbers, but soon disappear. This product is formulated to allow worker ants to consume the product and survive long enough to carry the liquid back to the nest and deliver a dose to the rest of the colony. Monitor the placements and ensure there is always a fresh supply of Maggie's Farm Ant Killer at each placement.

Indoor Use

Apply Maggie's Farm Ant Killer to small pieces of cardboard, paper or foil, or in purpose built bait stations and place product in areas inaccessible to children and pets, where ants are seen, such as the edges of sinks, tubs, window sills, under food cabinets, along floors and base boards and in corners. Use plenty of bait placements, the more bait placements the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are found entering the structure. Ants typically follow defined trails from the nest to food or water. Placing Maggie's Farm Ant Killer close to these trails will improve control.

Outdoor Use

Environmental Hazards: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

Locate areas around the building where ants are seen trailing. Apply Maggie's Farm Ant Killer in areas inaccessible to children and pets. For a perimeter defense system, place bait stations against the foundation where the trails are found. Spacing the bait stations every 5 to 10 feet will provide the best results. Check the bait stations regularly for activity. Remember ants will feed on Maggie's Farm Ant Killer and carry the bait back to the rest of the colony. Heavy infestations may require several bait placement refills.

Storage and Disposal

Storage: Store in a cool dry place. Do not store where children or animals may gain access.

Disposal: If Empty: Non-refillable container. Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call you local solid waste agency or **1-800-CLEANUP** which is managed as a public-private partnership.

Warranty Limitations and Disclaimer

Seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material subject to these terms, and assumes all risk of usage and handling except when used or handled in accordance with this label. There are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically stated herein.
