PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Keep away from humans, domestic animals and pets. Keep away from feed or foodstuffs. May be harmful if swallowed or absorbed through the skin. Wear gloves when handling this product. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling bait.

FIRST AID

HAVE THIS LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE.

IF SWALLOWED	<ul style="list-style-type: none">• Call a Poison Control Center, doctor, 1-800-664-9042 or 1-800-858-7378 immediately for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting, unless told to by a Poison Control Center or doctor.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15 to 20 minutes.• Call a Poison Control Center, doctor, 1-800-664-9042 or 1-800-858-7378 immediately for treatment advice.

NOTE TO PHYSICIAN: If swallowed or absorbed through the skin this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K₁ intramuscularly or orally, as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARD:

This product is toxic to fish and wildlife. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

HOMEOWNER

STORAGE: Store only in original container, in a dry place inaccessible to children and pets.

DISPOSAL: Non-refillable container.

IF EMPTY: Do not reuse or refill this container. Place in trash or offer for recycling if available.

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

NON-HOMEOWNER

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

PESTICIDE CONTAINER: Non-Refillable container. Do not reuse or refill this container. Offer for recycling if available. Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration or, if allowed by state and local authorities, by burning. If burned stay out of smoke. Call your Local Waste Agency for any questions on proper disposal.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. *Use only for the sites, pests, and application methods described on this label.*

IMPORTANT: Do not expose children, pets, or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use, in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals, and nontarget wildlife, or in **tamper-resistant bait stations**. These stations must be resistant to destruction by dogs and by children under six years of age and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container, and unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS

Do not place bait in areas where there is a possibility of contaminating food, water or surfaces that come in direct contact with food. Do not broadcast bait.

FOR CHIPMUNKS: For control of chipmunks around the foundations of homes and other buildings and adjacent patios, walls, and walkways where burrowing activity of these animals are compromising these structures by removal of soil and exposure to precipitation and weather.

Use only in Tamper-Resistant Bait Stations. Available from J.T. EATON & CO., INC., 330.425.7801. See description above in IMPORTANT heading paragraph 2 above.

SELECTION OF TREATMENT AREAS

Determine areas where Chipmunks will most likely find and consume the bait. Generally, these are adjacent to burrow entrances and along burrow runways.

APPLICATION DIRECTIONS

For a minor infestation (1 to 3 animals) in one area, use a single tamper-resistant bait station. Place 1 to 3 place packs of this product on a **Securing Rod** (available from JT EATON) inside of the bait station. Place bait station beside burrow or on runway and secure bait station to the ground with EATON'S® "**Securing Stake**" or other means, **to insure that the bait station will not be moved or picked up.**

For more extensive infestations, use additional tamper-resistant bait stations, no closer than 20 feet.

Check stations (daily, if possible) and maintain bait for a minimum of 10 days or until activity stops, determined by absence of plugged burrows and absence of fresh signs of animals. Using water-proof gloves, collect and properly dispose of spilled bait and dead animals, whenever found. Remove bait stations at end of control program.
