

B&G Introduces our new battery powered backpack featuring the same precision B&G sprayer you know and trust available now without the need to pump.

Manufactured using the highest quality materials for maximum durability and includes the exclusive perimeter multi-nozzle tip system that's perfect for every job. Up to 60 gallons per battery charge and included spare battery means you'll never be without power. Pin-stream nozzle provides up to 28' vertical reach for quick and simple wasp nest treatment.

The perfect tool for perimeter treatments. Made in the USA.
