WE ARE B&G

Quality Assurance

Quality Assurance and Precision Engineering are the basis of the B&G reputation in the Pest Control Industry. These qualities are the goals of the skilled manufacturing and assembly team at B&G Equipment Company.

Customer Service

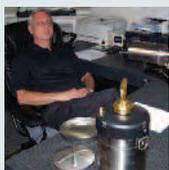

Customer Service and your satisfaction are important to the present and future of B&G. A dedicated team works to answer technical questions, complete orders, and coordinate shipping.

Technical Support

Get technical support from experienced former PMPs on staff at B&G. Averaging 15 years in the pest control industry, we are able to assist you in product recommendation, trouble shooting and repair of your equipment, along with most other pest related issues.

Engineering

Innovation in product design is due to our highly talented Engineering Department. All of the B&G products are designed in-house to fit the exact need of the Pest Management Professional.

B&G Equipment Company's state-of-the-art manufacturing facility located in Jackson, Georgia.

What our customers are saying...

Wayne White
AMERICAN PEST

"While the B&G brand is iconic to compressed air-sprayer technology, the company's long standing commitment to product design and quality continues to provide new and innovative solutions for the pest control industry."

Mike Masterson
CEO
ISOTECH PEST MANAGEMENT

"Using B&G products gives us the dependability and quality we count on so we can continue to provide our clients with the highest level of cutting-edge service."

Jennifer Leggett
PRESIDENT/OWNER
LINDSEY PEST SERVICES

"Thank you B&G for making us the best service providers in the industry. Your support of our industry and the quality equipment you provide, plus the education you offer, are second to none."

GREAT IDEAS FROM B&G

1

"Green Pest Control"

Looking to project a 'green' image? Instantly transform your business into a modern green look with these high performance IPM tools.

An effective monitoring program can reduce pesticide use and permits you to address problems where they occur. See page 27 for our complete line of monitoring products.

The revolutionary AccuSpray Professional sends an instant message to your customers that you are a high tech IPM company. See page 9 for additional information.

The all new "Green" B&G Sprayer lets your customers know that you are taking an environmentally friendly approach to pest control. See page 6 for more information.

The first true IPM Rodent Station: The B&G Fast Catch Station. See page 24 for more information.

3

Bed Bug Treatment Equipment

The B&G Low Profile Monitor has proven to be the most effective sticky trap monitor for bed bugs. See page 27 for more information.

The Ultimate Bed bug Tool: The B&G Portable Aerosol System. Cuts chemical usage and application time. See page 11 for more information.

2

"Increase Your Profits"

You can cut as much as 50% off your chemical cost by using these four money saving products.

Save on the cost of Aerosols. The B&G Portable Aerosol System (PAS) significantly increases speed of application which reduces your labor on bed bug, cockroach, and carpenter ant services. Go to page 11 to learn more.

Still using 'free' or generic bait guns? Many bait guns over apply bait by as much as 50%. Is your gun still 'free' when it applies twice the amount of bait recommended on the label? See page 25 for more information.

A one-of-a-kind machine, the Versa-Fogger provides correct particle size droplets and a powerful blower to deliver them into the foliage of backyard shrubs and bushes. The handle attached to the nozzle permits the operator to direct the spray and to avoid treating non-target areas.

Did you know that spray tips found on most commercially available backpacks over apply insecticide by up to 50%? The B&G PestPro IV Backpack is specially designed for the Pest Control Industry and meets the labeling requirements of most pesticides. Learn more on page 22.

Application of liquid insecticide is critical for any bed bug job. B&G has a complete line of liquid application equipment.

Application of dust is critical for an effective bed bug treatment. B&G offers many choices for dust application equipment. See pages 20-21 for more information.

TANK SPRAYERS

Tank Sprayer Selection Guide

The world famous B&G Sprayer is available in a variety of models and with features that fit every pest control application. Built from the highest quality components, the B&G Sprayer is designed for years of dependable service.

Extenda-Ban

Extenda-Ban Sprayers include the following features:

EXTENDA-BAN

Top quality valve for instant tip shut-off

B&G 4 WAY TIP (except where noted)

With fine fan, coarse fan, pin stream, and either a Crack & Crevice Straw or orifice ("CC") or a second pin stream ("S")

The B&G 4 Way Tip meets the labeling requirements of most modern insecticides.

- 1/2 gallon = 2 Liter
- 1 gallon = 4 Liter
- 2 gallon = 7.6 Liter
- 3 gallon = 11.3 Liter

XR-Valve

XR-Valve Sprayers include the following features:

XR-GUN

The most cost effective gun still offering various extension lengths but without tip shut-off

B&G 4 WAY TIP (except where noted)

With fine fan, coarse fan, pin stream, and either a Crack & Crevice Straw or orifice ("CC") or a second pin stream ("S")

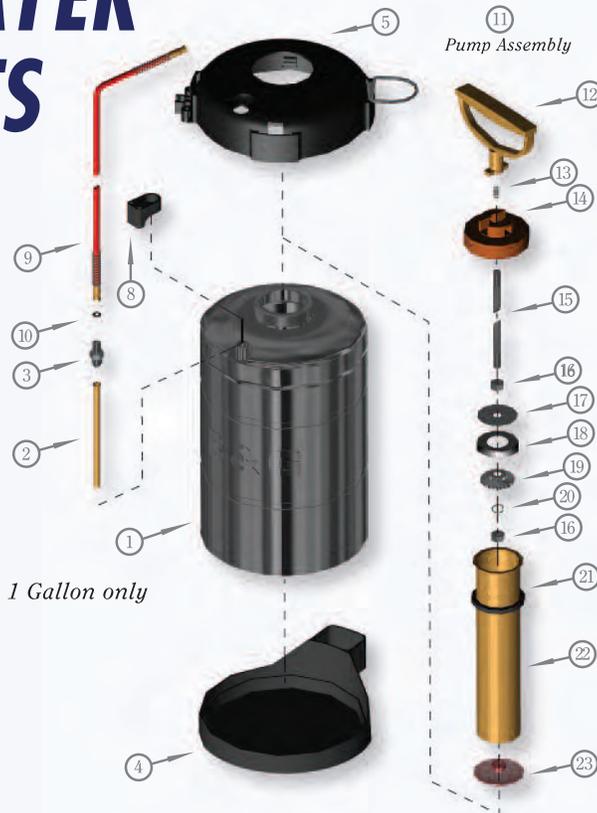

Ban-Drip

Gasket Kits

Designed for rebuilding sprayers. Includes the most commonly needed parts when repairing a sprayer.

DESCRIPTION	ORDER #	MODEL #
Sprayers with XR Valve	22049600	GT-100
Sprayers with Extenda-Ban Valve	22050100	GD-124

First Aid Kits

Same as the Gasket Kit but includes higher volumes of all parts. Good for conducting Care & Maintenance classes for an entire office.

DESCRIPTION	ORDER #	MODEL #
Sprayers with Extenda-Ban Valve	22050400	FA-600-D
Sprayers with Ban-Drip Valve	22050300	FA-600-B
Technician Emergency Kit	23088125	TE-125
Office Emergency Kit	23088126	OE-126

Sprayer Tune-Up Kit

Keeps your sprayer in perfect working order. Apply pesticides that meet labeling requirements without over-application. Includes instructional DVD on how to clean and repair your sprayer. Priced at a savings of over 20% compared to purchasing individual parts.

Kit includes GD-124 Repair Kit, DVD on maintaining and cleaning your sprayer, Cleaning kit, New 4 Way Tip, and Repair & Rebuild Manual

DESCRIPTION	MODEL #
Kit with 4 Way Crack & Crevice Tip	22049630
Kit with 4 Way Tip	22049631

Technician Emergency Kit

Commonly needed parts for most B&G equipment. Includes easy to understand drawings of parts, repair hints, and refill quantities. Works in conjunction with the Office Emergency Kit as a refilling station.

Office Emergency Kit

A great inventory system for B&G repair parts. Contains more quantities of those parts in the Technician Emergency Kit and also has many less common parts not included in the Technician Emergency Kit. Recommended for office supply rooms. Good for offices with 3 to 8 technicians. Includes easy to understand drawings of parts, repair hints, and refill quantities.

"Green" B&G Sprayer

Promotes a "Green Image" to your customers. Can be used with all natural products, most common insecticides and Non Repellant type products. In addition to promoting a green image, with its green top and bottom, it allows the technician to easily identify the contents of the sprayer.

- Models with 9" or 18" extensions available
- Chemical resistant hose
- B&G 4 Way Tip
- Green top and carpet protector
- This sprayer meets the labeling requirements of most "Common Insecticides"

DESCRIPTION	ORDER #
Green Sprayer 9" Valve, CC Tip	11003917
Green Sprayer 18" Valve, CC Tip	11003958

Sprayer Caddy

Mounts in your service vehicle and holds your sprayer firmly in place. Helps prevent damage or chemical spillage during transportation.

- Heavy duty metal construction
- Chip resistant finish
- Mounting holes for either side or bottom mounting

DESCRIPTION	ORDER #
Caddy - 1 gallon & 5 liter (tall)	11009850
Caddy - 2, 3 gallon & 5 liter (short)	11009860

Komfort Grip

Add the B&G Komfort Grip handle to your sprayer.

- Reduce fatigue
- Non-slip grip
- Feels great
- Identify product
- Great for replacements

DESCRIPTION	ORDER #
Komfort Grip Handle	22029800

Quick Connect Kit

- Quick change-out of valves in the field
- Use to prevent freezing of valve in the winter by removing valve from the sprayer
- Inserts between valve and hose

DESCRIPTION	ORDER #
Quick Connect Kit	22071825

B&G Cleaning Kit

Extend the life of your B&G Sprayer with the B&G cleaning kit.

- Less down time
- Better application
- Specially designed for use with B&G Sprayers
- Improve productivity

DESCRIPTION	ORDER #
B&G Cleaning Kit	22049625

TERMITE CONTROL

Series 400 Termite Tools

When was the last time you upgraded your termite tools? B&G Series 400 Termite Tools puts you in control of termite treatment costs. Apply the correct amount of termiticide every time, in precise locations. Reduce technician fatigue. Do it right the first time with our complete sets of termite tools.

- 4 precision delivery tips included
- Quick change adapters are standard on all pipes
- Custom tools built to fit your specific needs
- Designed to meet current labeling requirements of termiticides
- Tip shut-off available on some models

Pipes

- All 7/16” pipes – stainless
- 5/8 Stainless rodding pipe
- Variety of lengths for all applications
- Comes complete with foot ram assembly

Versagun

- Best termite valve in the business
- “Balanced” trigger for less operator fatigue

Robco QCG

- Pressure gauge port at valve
- Easily converts to a perimeter spray gun

Versatool

- “Old Reliable”
- Economical and durable

Tips (included with each Termite Tool kit)

- Designed for a wide range of applications
- Stainless steel construction
- Tips are calibrated at 20 psi
- Wide variety of sizes
- Precision machined

COMPACT SPRAYER

See a video of these products in action @ www.bgequip.com

The AccuSpray is an important tool for any IPM Program. The compact design allows insecticide to be applied to areas where insect activity is present. There are many models and configurations available.

AccuSpray Professional

- Brass Extenda-Ban valve
- All metal bottle
- Heavy duty hose assembly
- Wide variety of tips
- Deluxe holster

AccuSpray

- 16 oz. working capacity
- 6' coiled hose
- High efficiency pump – less than 10 strokes to pressurize
- Push button trigger provides fine spray and includes a C&C straw

AccuSpray Professional spare bottle and cap

AccuSpray Professional shown in deluxe holster

Portable Aerosol System

The B&G ULV Portable Aerosol System gives you deep wall void penetration, crack and crevice along with localized fogging capabilities and costs much less than competitive equipment. It has the capability of also doing a liquid only application for crack and crevice work or an air only application for use in a flushing operation.

- One gallon stainless tank, can be easily removed from case for cleaning or filling
- Brass and stainless steel gun with your choice of 9" or 18" extension
- 10' self coiling hose (15' on commercial units)
- Tank can be removed from case for spot treatments
- Many models available, including a commercial version, which features a fan cooled compressor along with a 15' hose
- Liquid pressure is adjustable to give you from a heavy mist to ULV fog
- All units are field repairable—no need to return the unit for service
- Save 90% on the cost of purchasing aerosols in a can—create your own with the Portable Aerosol System.

Portable Aerosol System shown in cut away view.

Priced at half the competition and great for all applications from bed bugs to commercial kitchens to general pest.

DESCRIPTION	ORDER #
Unit with 9" Extension	16290000
Unit with 18" Extension	16300000
Commercial Unit with 9" Extension	16270000
Commercial Unit with 18" Extension	16400000
Cart-Mounted Portable Aerosol System	12011030

SPECIALTY SPRAYERS

Wood Treatment System (WTS)

The B&G Wood Treatment System produces 10-15 times the volume of liquid as compared to a traditional foamer and 5 times more capacity as compared to typical fan sprays. This ensures that the chemical can penetrate deeper than any other method.

**Creates Both
Foam & Liquid**

- Delivers liquid or foam insecticide
- 3-gallon tank, 30' or 50' hose
- Compressor maintains tank pressure, adjustable to 50 psi.
- Ideal for pre-treatments of structural wood, sub-slab re-treatments for termites
- 220V Models available. Contact B&G for more information.

DESCRIPTION	ORDER #
WTS-Standard 30' of hose, single surface tip, and wall void tip	24040000

DUST APPLICATION

See a video of these products in action @ www.bgequip.com

Electric Dust / Granule Applications

An Electric Dust/Granule applicator that is ideal for applying a large volume of material consistently over a broad area.

- Chamber holds 3 lbs. of dust or granules
- Extension adds a static charge to the dust
- Flexible 1' hose to direct material to target
- Available in 110V or 220V
- 12" direct application attachment

DESCRIPTION	ORDER #	MODEL #
110V Electric Duster	15015605	2250
12" Extension	29108459	2259
Long Reach Granular Dust-R	24050000	1153-G
Mini Dust-R	11005850	1151-M
Hand Dust-R	11005800	1152-A

220V Models available. Contact B&G for more information.

Long Reach Granular Dust-R

- Chamber holds 2 quarts of dust
- Ideal for treating attics and crawl spaces
- Great for treating wasp nests
- 3-14" extensions
- Extension adds a static charge to the dust

Mini Dust-R

- Chamber holds 0.5 lb. of dust, 7 oz. of granules
- Large opening for easy filling and emptying
- Consistent delivery of granules
- Tip kit included for all applications
- Great for most dust applications

Hand Dust-R

- Chamber holds 2 quarts of dust
- Extension adds a static charge to the dust
- Ideal for treating attics and crawl spaces
- Includes 12 inch extension with 90° off-set at end of the tube
- Variety of tips included

VERSADUSTER

The new Versaduster from B&G is a very reliable power duster at an economical price. Great for all dust applications from commercial kitchens to bed bug treatments.

- No batteries required
- Easily serviced
- Economically priced
- 40' recoiling hose
- Easy to fill
- Heavy duty XR Valve
- Works with all dust formulations
- Easily plugs into any power source
- Heavy duty design built for years of dependable service
- "No Clog" design applies a dust application with each pull of the trigger
- Can be purchased as a kit (without compressor) for use with a PAS or Versafoamer

Heavy duty fan cooled compressor unit for long service life. Electrical connection is made by use of a standard extension cord.

Dust output is adjustable from a very fine to a heavy application.

Adjustment knob to control dust output.

Download a copy of our new Technical Manual on Dust Application at www.bgequip.com

MONITORS & BAIT STATIONS

See a video of these products in action @ www.bgequip.com

TM-1 Termite Monitor

Provides a Valuable Service

Constantly monitors your customer's premises for possible termite presence. Allows you to address any termite activity immediately.

Increased Customer Retention

On a daily basis it gives your customer a reminder of the valuable service you provide. The B&G TM-1 Termite Monitor can be custom printed with your company information.

Increased Sales

Offers you the opportunity to supply a Termite Monitor Program as an "add on" service. When termite activity is present permits you the opportunity to immediately sell a termite protection and remediation program.

Inexpensive and Easy to Install and Service

The B&G TM-1 Termite Monitor is easy to install – no drills or augers are required. Servicing takes less than a minute and at a cost of less than \$2.00 per Monitor.

Shown in open view

Give us a call at 800-544-8811 and we can help you put together a termite monitoring program.

RODENT CONTROL

Fast Catch **NEW**

Highly Versatile Rodent Station

The Fast Catch can be used for monitoring with non-toxic bait and then when activity is present a snap trap can be used for final control. It can also be utilized as a “stand alone” snap trap or rodent bait station.

The Fast Catch station is available in two different models, the first is a station-only design and the second is our “Rodent Alert” design. This Patent pending design features a “pop up” alert that will notify you that the snap trap has been triggered.

- Heavy duty construction
- Easy open single lock design
- Reusable – designed for years of service
- Tamper resistant – lid recesses into base
- Low profile design for increased rodent activity
- Fits all professional rat snap traps and includes bait rods
- Long entry pathways keeps the rodent hidden after catch
- Pop-outs in rear of station allows for attachment to pipes or any other object by use of cable ties

Great places to use the Fast Catch:

- Sensitive Accounts – where rodenticide is banned
- Residential Accounts – keeps rats hidden from occupants
- Commercial kitchens, restaurants and office complexes

Can be used with snap traps, bait, or a combination of both.

DESCRIPTION	ORDER #

Rodent Station Attachment System

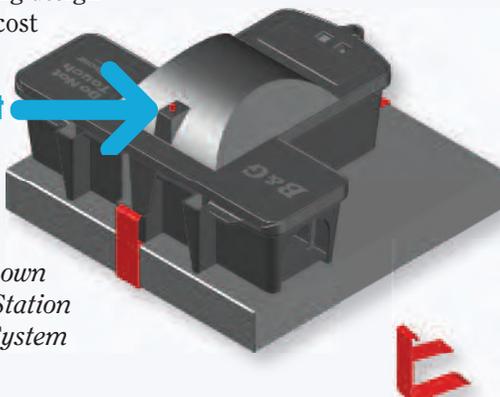

Technical specifications:

- Attaches any B&G rodent station to a 12”x12” paver block
- Installs in less than 30 seconds
- Heavy duty metal construction
- Patent pending design
- Economical cost

Special features:

- The station attachment system consists of 2 clamps, a metal screw and washer. It is designed for use with a 12”x12” (1.5” thick) concrete paver, and only with B&G rodent stations
- Easy and economical way to secure the Fast Catch and rodent bait station
- Holds station securely to block and is reusable

LOW PROFILE AND MINI-T MONITOR AND TRAP

See a video of this product in action @ www.bgequip.com

Cockroach Trap & Insect Monitor

Unlike competitors that put attractant in their glue, B&G uses a new highly proprietary process that actually applies a layer of attractant before the glue is applied. This provides the highest level of attraction to the insect.

- Ideal as monitor in IPM programs
- Highly effective glue for positive catch rates
- Promotes "Green" pest control
- Great for IPM programs
- Private label available
- Large trap with a low profile, fits under tables and in confined spaces
- Design prevents cockroaches and insects from escaping
- Food based attractant is safe yet very effective for all insects including cockroaches, silverfish, spiders, centipedes and earwigs.

Openings in side generate increased attraction by allowing air to flow through the trap.

Ramp design improves catch rate.

Use in sensitive accounts where use of insecticides is limited or prohibited.

Mini-T Insect Monitor and Trap

Same great design as the B&G Low Profile Trap but in a compact size.

- Food based attractant in glue
- Moisture resistant stock
- Highly effective glue for a positive catch rate
- Works on a wide variety of pests including Bed Bugs
- Private label available
- Can be used in sensitive accounts where pesticide use is limited
- Economical yet very effective
- Can be private labeled with your name or logo under the glue for as little as 2000 traps at no additional cost.

NEW
Ready-to-use model!
NO TABLETS!

Ramps on each end insure a positive catch.

VERSA-FOGGER **NEW**

The First True Gasoline Powered Backpack Fogger

The Versa-Fogger is a jointly developed product between B&G and Curtis Dynafog. Unlike a conventional mistblower, by adjusting the output of the nozzle, this unit is capable of providing a broad range of flow rates and particle sizes for proper insect control.

- Reliable Honda 4 stroke motor - No need to mix oil with the gas
- Lower operating costs as compared to a 2 stroke motor
- Emissions compliant motor
- Transistorized ignition insures a quick start every time.
- High strength aluminum frame
- 1 Gallon solution tank
- Adjustable handheld nozzle. Can be adjusted from a very fine to heavy fog
- Three stage rotary blower - Creates high pressure air for optimum atomization of liquid
- Lightweight - less than 26 lbs (dry weight)
- Quiet 4 stroke operation
- .67 quart fuel capacity
- Carrying handle
- 2 Year motor warranty (1 year other components)

The Versa-Fogger is designed for a wide variety of applications from Mosquito Control to Insect Control in a warehouse environment. Its heavy duty, all metal construction, along with a deluxe backpack harness will give years of dependable service.

The Versa-Fogger provides a finely atomized fog at a high velocity. It provides good penetration into foliage along with a far reaching fog plume to treat remote areas.
