DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- Aerial applications are prohibited.
- THIS PRODUCT IS FOR INDOOR USE ONLY.
- Applications with powder duster equipment are prohibited.
- Applications to pets are prohibited.
- Do not allow adults, children or pets to enter the treated area until dusts have settled.
- Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
- Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Do not apply more than 1 time per day.
- Do not apply this product directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application.
- Remove pets, birds and cover fish aquariums before use.

Shake well before using.

One 16 ounce canister contains enough powder to treat 1 to 2 rooms (200 - 400 square feet). When using this product at the lower rate, allow the powder to remain in place for 24 hours before vacuuming. Apply powder more heavily to areas off flooring or furniture on which pets spend most of their time. Keep children and pets off treated carpet and upholstered furniture during treatment while powder is still visible on these surfaces. Apply to dry surfaces only. Do not wet powder.

DIRECTIONS FOR USE Cont.

Carpets: Shake powder evenly across surface. Brush lightly with broom to force powder deep into carpet where fleas and their larvae exist. Do not apply as a broad carpet treatment. Only apply as a spot treatment to areas no greater than 3 feet by 3 feet per room. Wait at least 60 minutes before (lightly) vacuuming to remove visible surface powder. For maximum efficacy, delay vacuuming for up to 24 hours. Do not apply more than 1 time per day.

Upholstery: Remove loose cushions. Sprinkle along creases and into corners. Brush lightly to work powder into folds and creases. Only apply as a spot treatment to areas no greater than 3 feet by 3 feet per room. Vacuum to remove visible powder on surfaces. Do not use on exposed fabric without first testing on a hidden surface for effects on color (staining) or texture. If powder adheres to a spot, brush out and vacuum that area immediately. Do not apply more than 1 time per day.

When emptying vacuum bag after use, wrap contents or disposable bag in several layers of newspaper and discard in trash.

Treat pets with a registered flea and tick control product prior to re-entry into treated areas.

Settling of contents occurs naturally during transportation and handling. You can be assured of proper contents as this container is sold by weight, not by volume.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal

PESTICIDE STORAGE: Keep this product in its tightly closed original container, when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

USER SAFETY RECOMMENDATIONS

Users should wash hands with plenty of soap and water before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

FIRST AID
