

Flat Trap Assembly Instructions

1. Form trap by folding sides up, creasing the trap along the scored lines
2. Peel off the protective paper from the sticky base after the trap has been formed
3. Remove pheromone lure from package
4. Place lure in center of the base
5. Remove excess paper around the tab and connect to the corresponding slot
6. Put trap in convenient place where targets insects are likely to hide
7. Date trap with the date that you placed lure in trap and check regularly
8. Dispose of trap when sticky base is covered with insects.
9. Replace lure according to manufacturer's guidelines
