

HOW TO USE BOUGAIN: BOUGAIN feeds all varieties of bougainvillea to achieve the maximum amount of color on your plant.

Potted Bougainvillea

6"	1 tablespoon
10"	2 tablespoons
14"	3 tablespoons
24"	6 tablespoons

In-Ground Bougainvillea

2-3' tall	1 tablespoon
4-5' tall	2 tablespoons
6-7' tall	3 tablespoons
10" tall	5.5 tablespoons

Apply BOUGAIN to top of soil **every 4 weeks**, or after each blooming cycle. It should be sprinkled evenly under and slightly beyond the spread of the branches. Be sure to water the area well before and after fertilizing. Do **not** apply BOUGAIN to dry soil. Take care to brush or wash fertilizer granules off leaves to prevent injury (burn).
