BuffaLoam Product Information Sheet

ORGANIC PLANT FOOD

Loose Compost Tea

BuffaLoam Organic Plant Food Tea is a natural source of nutrients for your plants. It is based on our 100% buffalo compost sourced only from our Diamond Tail Ranch in Northern Colorado. BuffaLoam products have been developed with a desire to continue the strong renaissance and regrowth of the majestic Bison.

Ingredients: BuffaLoam Organic Buffalo Compost, Norwegian seaweed, and Endomycorrhizae

Usage: Add two tablespoons of loose compost tea to one half gallon of distilled, non-chlorinated water. Stir well. Water plants thoroughly. Repeat the application at every watering. You may also sprinkle a ¼" layer of BuffaLoam Organic Plant Food around the base of your plants and water it in the soil.

Benefits: Increases plant health, foliage and yield. As the tea feeds the soil microbes, the root system and health of the plant will be improved.

All BuffaLoam products are OMRI Listed and tested under US Composting Council Testing Assurance Program.

Product Net Weight: 1.60 lbs.

Case Pack: 6

Case Net Weight: 15 lbs.

Pallet Configuration: 12T X 6H = 120
