WARRANTY
To the extent consistent with applicable law,
the seller warrants that this product conforms
to the chemical description on this label and is
reasonably fit for purposes stated on this label
only when used in accordance with directions
for use. This warranty does not extend to use
of this product contrary to label directions,
or under abnormal use conditions, or under
conditions not reasonably foreseeable to seller.
To the extent consistent with applicable law,
seller makes no other warranties, either
expressed or implied.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage
or disposal.
PESTICIDE STORAGE: Store this product in its
original container and keep in a secure storage
area out of reach of children and domestic animals.
CONTAINER DISPOSAL: Nonrefillable container.
If empty: Do not reuse or refill this container.
Place in trash or offer for recycling, if available.
If partly filled: Call your local solid waste agency
for disposal instructions. Never place unused
product down any indoor or
outdoor drain.

FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20
minutes. Remove contact lenses, if present, after the first 5 minutes, then
continue rinsing eye. Call a poison control center or doctor for treatment advice.
Hotline Number
Have the product container or label with you when calling a poison control
center or doctor, or going for treatment. For emergency information concerning
this product, call 1-800-308-3723.

HOW TO APPLY:
Scatter the slug and snail bait granules on the soil around or near
the plants to be protected. Use the included measuring scoop to
apply bait. Do not use kitchen utensils for food uses after pesticide
use. Do not place in piles.
Reapply as the bait is consumed or every two weeks. Apply more
heavily if the infestation is severe, if the area is heavily watered or
after long periods of heavy rain.
A plastic scoop with measuring lines is included with the product.
Use this scoop to measure and apply the bait. Use 0.5 teaspoons per
sq. yd. Place the scoop back in the container after the application.
WHERE TO APPLY:
Treat all likely areas of infestation, especially around the base of plants,
between rows and around the perimeter of garden plots where pests
travel into plant areas from daytime refuges. Slugs/snails favor damp
places around vegetable plants such as beans, tomatoes, lettuce,
cabbage, celery and squash. Other favorite areas are flower gardens,
rockeries, hedges, dichondra lawns, citrus groves, ivy patches, and
other ground cover where they obtain shelter by day.
AMOUNT TO APPLY:
0.11 - 0.44 lbs/1000 sq. ft. or 0.5 teaspoons/sq. yd.

1lb. treats
5,000 sq. ft.

One application
protects plants
up to 2 weeks

GENERAL INFORMATION
(WHY SLUG AND SNAIL BAIT
IS EFFECTIVE)
This product has a non-toxic mode of action and can
be used in areas where pet and wildlife protection is a
concern. When slugs and snails ingest the bait, they stop
feeding and crawl back to their shelter where they eventually die.
It remains effective under varying weather and environmental
conditions.

The bait is ingested by slugs and snails when they travel from their hiding
places to plants. Ingestion, even in small amounts, will cause them to cease feeding.
This physiological effect of the bait gives immediate protection to the plants even though the slugs and
snails may remain in the area. After eating the bait, the slugs and snails cease feeding, become less
mobile and begin to die within three to six days. Dead slugs and snails may not be visible as they often
crawl away to secluded places to die. Plant protection will be observed in the decrease in plant damage.
This product is effective against a wide variety of slugs and snails and will give protection to home
lawns, gardens, greenhouses, outdoor ornamentals, vegetable gardens, fruits, berries, citrus and plants.
The bait can be scattered on the lawn or on the soil around any vegetable plants, flowers or fruit trees
or bushes to be protected.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals:

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash
thoroughly with soap and water after handling and before eating, drinking, chewing gum,
using tobacco, and using the toilet.
Environmental Hazards: To protect the environment, do not allow pesticide to enter or
run off into storm drains, drainage ditches, gutters or surface waters. Applying this product
in calm weather when rain is not predicted for the next 24 hours will help to ensure that
wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product
that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or
garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent
with its labeling.
For use around vegetables, fruits including citrus, berries, herbs, outdoor
ornamentals, greenhouses and lawns.
