***Contains petroleum distillates

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove all wash contaminated clothing before reuse. Wash long sleeved shirt, long pants, socks, shoes and chemical resistant gloves (Barrier laminate, nitrile rubber, Neoprene rubber, Viton, selection category 1).

FIRST AID - IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **NOT FOR HUMANS:** Remove the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-222-1222, 24 hours per day, 7 days per week. **NOTE TO PHYSICIAN:** Contains petroleum distillates - notify your case manager.

Personal Protective Equipment (PPE): Gloves, hooded, application and other handlers must wear the following - Long sleeve shirt - Long pants - Shoes and socks.
User Safety Requirements: Follow manufacturer's instructions for choosing/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Stowed clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

User Safety Recommendations:
• User should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• User should remove clothing PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• User should remove PPE immediately after handling the product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through run-off. This water has a potential for run-off for several weeks after application. Flooded drainage ditches and ditches with shallow water tables are more prone to produce run-off than untreated areas. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. Do not apply to water, to areas where surface water or runoff is present or to terrestrial areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or rinsate. See Directions for Use for additional precautions and restrictions.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause heating. Do not allow spray to contact plastic, painted or varnished surfaces.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
FOR USE IN: Food handling and food preparation areas of restaurants and food processing plants, stores, farms, dairies, barns, kennels, factories, hotels, motels, offices, ships, planes (Cargo area only), supermarkets, food warehouses, bottling plants, homes, milk and egg handling areas of dairies and chicken houses.

This product contains a highly effective insecticide designed especially for use in automatic dispensers. The dispenser activates the insecticide every 15 minutes. Study the effectiveness of this product will be noticeable within one hour after the Dispenser is activated. If less than 24 hour kill is required, the dispenser should be set to start one hour before kill is desired and run one hour after kill is no longer needed. Keep in mind that factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and kill. Therefore, one unit per 1000 cubic feet of unobstructed space should be considered as a starting point with adjustments made depending on specific conditions at usage site. As with any method of insect kill, best results are achieved when sanitation and other positive insect prevention practices are followed.

Do not use in unsealed cabinets. It is suggested that the container be changed once a month.
OPERATION: Remove protective cap from top of can & insert can in dispenser. Secure dispenser at least 7 feet from floor or ground at a point where air flow or wind will carry the particles throughout the area to be protected.

USE RESTRICTIONS: Apply this product only as specified on this label. - Do not contaminate food or feedstuffs. - THIS PRODUCT IS FOR ROOM USE ONLY. - This product is not for use in residential areas or on indoor residential surfaces. - This product is not for use in residential pest control systems (indoor or outdoor). - Do not enter or allow others to enter until vapors, mists and aerosols have dispersed, and the area has been thoroughly ventilated. - Do not apply this product in a way that will contact workers or other persons, other directly or through drift. - Do not remain in treated area. - Do not immediately and remain in the treated area until aerosol vapors and mists have dispersed. - Remove or cover exposed food and drinking water before application. - Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before reuse. - Direct application to food contact surfaces is prohibited. - For outdoor food handling/preparation facilities: Do not make space spray applications when facility is in operation.
