

Special Solutions. For Specialty Markets

Cutless* 0.33G Landscape Growth Regulator

Cutless* Granular Landscape Growth Regulator. Good for business. Good for the environment.

Good for business...

- LESS time spent trimming and cleaning means more time invested in gaining new business, which means increased profits
- LESS time employees are exposed to trimmers leads to a safer work environment and reduced liability
- MORE attractive compact plants and landscapes lead to more satisfied customers, which means more business

Good for the environment...

- LESS clipping biomass means reduced dependency on landfills
- LESS fuel used for motorized trimming equipment and the vehicles used to haul away debris
- LESS equipment usage means less maintenance leading to extended longevity of the tools
- Plants may exhibit improved tolerance to select diseases, which can lead to fewer fungicide applications
- Cutless Granular suppresses small weeds growing in beds, making them less noticeable, which can lead to fewer herbicide applications and LESS hand weeding
- Cutless Granular treated plants require LESS water due to slowed growth rate and are better conditioned to survive drought conditions

"Since incorporating Cutless Granular into our maintenance program, we have reduced the amount of clipping debris being deposited into landfills by nearly 50%, not to mention the fuel savings that we have experienced by reducing our trips to the dump."
