

# D-THRUSH™

*Water-Resistant Protection*

## Indications:

D-Thrush™ is indicated in the treatment of thrush in horses and ponies.

## For Use On:

Horses and Ponies

## Product Benefits:

- Provides water-resistant protection
- No bandaging required
- Quickly clears up thrush

## Active Ingredients:

Copper Naphthenate.....37.5% w/w

## Directions for Use:

**SHAKE WELL BEFORE USE.** Clean the hoof thoroughly, removing debris and necrotic material prior to application of D-Thrush™. Apply daily to affected hoofs with narrow paint brush (about 1") until fully healed. Caution: Do not allow runoff of excess D-Thrush™ onto hair since contact with D-Thrush™ may cause some hair loss. Do not contaminate feed.

## Packaging:

16 oz. bottle, 12 bottles per case  
UPC# 7-45801-10528-7

# D-THRUSH™

## Water-Resistant Protection

### What is Thrush?

Thrush is a common ailment of horses' hooves (frog degeneration) caused by a secondary anaerobic bacterial infection.

### What are the most notable signs of thrush?

- Very offensive odor from the underside of the hooves
- A very dark, thick, liquid discharge from the hooves
- Possible lameness in severe cases

### What are the causes of thrush?

- Poor management
- Wet conditions
- Failure to clean hooves regularly

### How is thrush treated?

After thoroughly removing debris and necrotic material from the infected hoof, apply an astringent lotion, such as D-Thrush to affected area. Repeat daily.

### How can thrush be prevented?

Provide dry, clean standing areas free of urine-soaked bedding and manure. Regular exercise, and farrier care will also help prevent this disease.

## It Just Makes More Cents!

- Provides an affordable choice for you & your customers
- Quickly clears up thrush
- Available in convenient 16 oz. bottles (12 per case)
