HoofSOLID™

HoofSOLID™ is a pelleted hoof and digestive supplement formulated to provide optimum nutritional support for normal healthy hooves. The Omega 3 fatty acids in HoofSOLID™ help maintain pliability and moisture in the hooves. The nutrients in HoofSOLID™ work together to support cracked hooves and strengthen hoof walls. HoofSOLID™ helps support normal hoof growth, it includes the essential amino acids L-lysine and Methionine. It also includes Zinc, a trace mineral to help keratin development in the hoof walls. Yea-Sacc® 1026 (Saccharomyces Cerevisiae) is added to provide enzymes and factors necessary for proper digestion. Yea-Sacc® 1026 is extensively researched and scientifically proven; visit www.yea-sacc1026.com for more information and research articles. HoofSOLID™ is apple flavored to ensure palatability and contains biotin, lysine, methionine, minerals, key amino acids and yeast culture.

Feeding Directions: The enclosed scoop holds approximately six (6) ounces.

Horses: • Feed 6 oz. per day for 6 to 8 months then change to a maintenance level of 3 oz. per day. • At any time you may resume giving 6 oz. per day. • Serving based on an average 1,100 lb. horse. Adjust amount given according to body weight; more for larger horses, less for smaller horses, ponies or foals.

Ingredients: Biotin Supplement, DL Methionine, L-lysine, L-ascorbyl-2-polyphosphate (Vitamin C), Yeast Culture (Saccharomyces Cerevisiae grown on a medium of ground yellow corn, diastatic malt and cane molasses, dried to preserve its fermentation action.), Flaxseed Meal, Zinc Sulfate, DL-alpha-tocopheryl (Vitamin E Supplement), Copper Proteiniate, Dehydrated Alfalfa Meal, Dried Distillers Grains with Solubles, Wheat Middlings, Soy Bean Meal, Natural and Artificial flavorings.

Contains a source of live (viable) naturally occurring microorganisms.

Store in cool, dry place in a sealed bucket.
For animal use only. Keep out of reach of children.

Lot No.
