

No•Bite™

MULTI-PEST INDOOR FOGGER

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Precautions & Restrictions

Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Do not apply when food is present. Exposed food should be covered or removed. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Do not use in greenhouses where plants are grown for food. Wait four (4) hours after application, then open windows, vents, and doors to outdoors for one hour. There should be no remaining trace of pesticide fog or aerosol. If an odor is still detected, continue ventilating until no remaining trace or odor of pesticide remains. Do not use in aircraft cabins. When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking. Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Not for use in outdoor residential misting systems.

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where food may be prepared or held. Commercial food/feed areas where the product cannot be used include areas for receiving, serving, storage (dry, cold, frozen, raw), packaging (mills, dairies, edible oils, syrups). Can be used in non-food areas such as garbage rooms, lavatories, entries and vestibules, offices, boiler rooms, garages, mop closets and storage (after canning or bottling). Repeat spraying in two weeks when necessary. Does not control bed bugs.

To Use This Product Correctly:

Do not use more than one fogger per room. Do not use in a room 5 ft. x 5 ft. or smaller; instead, allow fog to enter from other rooms.

Do not use in small, enclosed spaces such as closets, cabinets or under counters or tables. Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property.

Use one 6 ounce canister fogger to treat a room up to 30' x 25' with an 8 foot ceiling

Before You Fog

Open cupboards, cabinets, trunks, and doors to area to be treated to allow maximum kill in all areas where insects can hide and breed. Close outside doors and windows and shut off fans and air conditioning to maximize killing power of fog.

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Cover waxed wood floors and waxed furniture in the immediate area surrounding the fogger (newspaper may be used). Remove pets, birds, and cover fish bowls and aquariums before spraying. Remove poultry before treating poultry houses.

To Start Fogging

SHAKE WELL JUST BEFORE USING. Place a section of newspaper on floor in center of room to be treated. NOTE: Do not place fogger on water-stainable surface. Tilt can opening away from face and depress tab firmly with thumb until it clicks in locked position. Aiming spray away from face, set fogger on newspaper. Vacate the treated house, individual apartment unit, or other structure immediately. Fill out and place hang-tag on the door to the treated area to alert family and others with access to the treated area not to enter for 4 hours.

Do Not Re-enter for 4 Hours

Close door and keep area closed for 4 hours before airing out.

Airing Out

Do not allow adults, children, or pets to enter until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated. Then open windows, vents and doors for two hours. If an odor is still detected additional ventilation is required.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights.

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Cover waxed wood floors and waxed furniture in the immediate area surrounding the fogger (newspaper may be used). Remove pets, birds, and cover fish bowls and aquariums before spraying. Remove poultry before treating poultry houses.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage: Do not store near heat or open flame. Store and transport in an upright position. Store in a cool dry area inaccessible to children or pets.

Do not puncture or incinerate!

Disposal: If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

FIRST AID

IF INHALED:

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS

CAUTION

Breathing spray mist may be harmful. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a highly flammable ingredient. It may cause fire or explosion if not used properly. Follow the "Directions for Use" on this label carefully.
