

## FOR USE IN ANIMALS ONLY

### INDICATIONS:

For use as a supplemental source of B Complex vitamins in cattle, swine and sheep.

### PRECAUTIONS:

Allergic-type reactions following the injection of products containing thiamine have been reported. Administer with caution and keep treated animals under close observation.

### DOSAGE AND ADMINISTRATION:

Inject intramuscularly. May be administered subcutaneously or intravenously if recommended by your veterinarian. The following are suggested dosages, depending on the condition of the animal and the desired response.

**Adult Cattle:** 1 to 2 mL per 100 pounds of body weight.

**Calves, Swine and Sheep:** 5 mL per 100 pounds of body weight.

May be repeated daily, if indicated.
