D-Worm™ COMBO

(pyrantel pamoate/praziquantel)

Broad Spectrum De-Wormer

D-Worm™ Combo Flavored Chewables
Package contents: Blisters of 2 or 12 chewables

DRUG FACTS

Active Ingredients (in each chewable):

Pyrantel Pamoate (30 mg) and Praziquantel (30 mg)

Purpose: De-wormer for Small Dogs and Puppies Only
(6.0 to 25 pounds)

Uses: For the treatment and control of

- Roundworms (*Toxocara canis*, *Toxascaris leonina*)
 - Hookworms (*Ancylostoma caninum*, *Ancylostoma braziliense*, and *Uncinaria stenocephala*)
 - Tapeworms (*Dipylidium caninum*, *Taenia pisiformis*)
-

Human Warning: Keep this and all medication out of the reach of children. To obtain product information, including a Material Safety Data Sheet (MSDS), call 800-234-2269.

When Using This Product:

- Consult your veterinarian for assistance in the diagnosis, treatment, and control of parasitism.
 - Do not de-worm a dog or puppy that is sick. Consult a veterinarian for diagnosis of the illness.
 - D-Worm™ Combo Flavored Chewables are safe for use in puppies 12 weeks or older and adult dogs. Safety in breeding dogs and pregnant bitches has not been tested.
-

You May Notice: Vomiting, loose stools (with or without blood) and decreased activity following treatment. If you notice these signs, contact a veterinarian.

Directions: Each flavored chewable contains 30 mg of pyrantel pamoate and 30 mg of praziquantel. The dose for each drug is 2.27 mg per pound of body weight (5 mg/kg). Please refer to the following dosing table for help finding the right dose for your dog.

D-Worm™ Combo
Flavored Chewables Dosing Table

Dog Weight	Number of Chewables
6.0 to 12.0 pounds	1
12.1 to 25 pounds	2
More than 25 pounds	Use the 114 mg size

- You should weigh your dog to make sure you are giving the right dose.
- D-Worm™ Combo Flavored Chewables are palatable if offered by hand. If your dog does not voluntarily eat the chewable, you can hide the chewable in a small amount of food or place it in the back of the dog's mouth for forced swallowing.
- Make sure that the dog eats the complete dose.
- Watch the dog for a few minutes after dosing to make sure the chewable is not rejected.

Other Information:

Recommended De-Worming Schedule: Consult your veterinarian for assistance in the diagnosis, treatment, and control of parasitism. De-worming schedules may vary depending on the climate where you live and the activity of your dog.

Re-treatment: Re-treatment of your dog may be necessary as determined by laboratory fecal examination and/or if your dog is living where re-infections are likely to occur. Consult your veterinarian for assistance in the diagnosis and prevention of re-infection. In case of re-infection with tapeworms (*Dipylidium caninum*), consult your veterinarian for advice on how to remove fleas from the dog and the environment.

Storage: Store at controlled room temperature of 59-86°F (15-30°C).
