

DOMINANT[®]

Liquid Ant Bait

Ants will abandon almost any food source for DominAnt's super sweet formula. As social insects, they take DominAnt back to the nest and feed the colony, killing the entire colony and the queen.

Place refillable bait stations along property perimeters, near ant nests and trails and other strategic areas. Simply fill the stations with DominAnt liquid ant bait and monitor during your service calls. Adjust station location as necessary depending on ant activity and colony locations.

- Easy to use with no unpleasant odor.
- Rapidly attracts then kills and controls common household ants* and their colonies, including:
 - Acrobat ants
 - Argentine ants
 - Big-headed ants
 - Cornfield ants
 - Crazy ants
 - Ghost ants
 - Little black ants
 - Odorous house ants
 - Pavement ants
 - White-footed ants
 - Other sweet-eating ants

**Except pharaoh, carpenter, fire and harvester ants*
