

DREXEL F.M.-160

Section 1: Material Identification

Product Name: Drexel F.M.-160

GHS product identifier: Anionic / non-ionic surfactant blend

Company: Drexel Chemical Company

1700 Channel Avenue Memphis, TN 38106

Recommended use: Foam marker

Recommended restrictions: None available

Synonyms: None available

Identifiers:

DOT information: See Section 14 for Transportation Information

Emergency Telephone Number:

CHEMTREC Drexel Chemical Co. Tel: 1-800-424-9300 901-774-4370

Section 2: Hazard Identification

(As defined by the OSHA Hazard Communication Standard, 29)

GHS classification:

Health hazards: Eye irritation Category 2A

Skin corrosion/irritation Category 2
Acute toxicity-Oral Category 4

GHS label elements:

Signal word: Warning

F.M.-160 Page 1 of 7

Hazard statements: Causes serious eye irritation.

Causes skin irritation. Harmful if swallowed.

Precautionary statements:

Prevention: Wash thoroughly after handling.

Do not eat, drink or smoke when using this product.

Wear eye protection, face protection, protective clothing, and protective gloves.

Response: If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **If eye irritation persists:** Get

medical advice/attention.

IF ON SKIN OR CLOTHING: Wash with plenty of soap and water. Take off

contaminated clothing and wash before reuse.

IF SWALLOWED: Call poison center or doctor/physician if you feel unwell.

Storage: Store in closed container. Store in a well-ventilated place.

Keep cool.

Disposal Dispose of contents/container in accordance with local/regional/national/

international regulations.

Specific hazards: None available

Section 3: Composition Information

Components CAS No.: % By Wt.:

Active ingredient:

Anionic / non-ionic surfactants Proprietary 100.00%

Section 4: First-Aid Measures

Eye Contact: Immediately flush eyes with water; remove contact lenses, if present, after the first 5 minutes, then continue flushing eyes for at least 15 minutes. Call poison control center or doctor for treatment advice.

Skin Contact: Immediately flush skin with water while removing contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse.

Inhalation: Move person to fresh air; If not breathing call 911 and give artificial respiration. Call poison control center or doctor for treatment advice

Ingestion: If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

Section 5: Fire Fighting Measures

Suitable extinguishing media: Water Spray, Foam, CO2, Dry chemical

F.M.-160 Page 2 of 7

Specific hazards arising from the chemical: Can be dangerous when exposed to extreme heat and flame. Do not breathe mist/vapors/spray.

Protective equipment and precautions for firefighters: Assure self-contained breathing apparatus is worn. Fight fire from upwind. Prevent runoff if possible.

NFPA: Health: Flammability: Reactivity:

1

(Rating: 4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Insignificant)

Section 6: Accidental Release Measures

Personal Precautions:

Isolate area. Keep unnecessary and unprotected personnel from entering the area. Refer to Section 7, Handling, for
additional precautionary measures. Keep upwind of spill. Spilled material may cause a slipping hazard. Ventilate
area of leak or spill. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure
Controls and Personal Protection.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Do not contaminate water.

Methods for containment: Stop the flow of material, if this is without risk. Collect and dispose of spillage as indicated in section 13. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up: Pick up spills with absorbent material and place in suitable properly labeled containers.

Section 7: Handling and Storage

KEEP OUT OF REACH OF CHILDREN

Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and

again when leaving work. Handle in accordance with good industrial hygiene and safety procedures.

Storage: Store in a dry place. Store in original container. Do not store near food, foodstuffs, drugs or potable water

supplies.

Section 8: Exposure Controls / Personal Protection

Occupational exposure limits: TLV 10mg/m³

Engineering controls:

Use engineering controls to maintain airborne level below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations.

Personal protective equipment:

Eye/Face Protection: Use chemical goggles

F.M.-160 Page 3 of 7

Skin Protection: Use protective clothing chemically resistant to this material. Selection of specific items such as face shield, boots, apron, or full body suit will depend on the task. Safety shower should be located in immediate work area. Remove contaminated clothing immediately, wash skin area with soap and water, and launder clothing before reuse or dispose of properly.

Hand protection: Use gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Neoprene, Nitrile/butadiene rubber ("nitrile" or "NBR") or Polyvinyl chloride ("PVC" or "vinyl").

Respiratory: Protection Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use an approved respirator. Selection of air-purifying or positive-pressure supplied-air will depend on the specific operation and the potential airborne concentration of the material.

Section 9: Physical and Chemical Properties

Physical state: Liquid

Color: Colorless to yellow

Form: Liquid Odor: Mild

Odor threshold:

PH:

6.0-7.5

Melting/freezing point:

35°F

Boiling point:

212°F

Flash point:

>200°F

Evaporation rate:

Not available

Flammability: Not available
Flammability limits in air, lower: Not available
Flammability limits in air, upper: Not available
Vapor pressure: Not available
Vapor density: Not available

Relative density: 1.03 g/mL (8.58 lbs./gal)
Solubility: Complete in water
Octanol/water coefficient: Not available

Octanol/water coefficient:
Auto-ignition temperature:
Not available
Not available
Viscosity:
Not available

Section 10: Stability and Reactivity

Chemical stability/instability: Stable at typical use temperatures

Conditions to avoid: Avoid extreme temperatures and open flames.

Incompatible materials: Avoid contact with: Strong oxidizers

Possibility of hazardous reactions: Will not occur

Hazardous decomposition products: Oxides of carbon

F.M.-160 Page 4 of 7

Section 11: Toxicological Information

Toxicology data:

<u>Components:</u> <u>Test results:</u>

Anionic / non-ionic surfactants

Acute oral LD50 (rat): >5000 mg/kg

Acute dermal LD50 (rabbit): 5000 mg/kg

Routes of exposure: Skin contact. Eye contact. Ingestion.

Acute effects: Skin irritation. Serious eye irritation. Harmful if swallowed.

Sensitization: No data available Chronic effects: No data available Carcinogenicity: No data available

Mutagenicity: Non-mutagenic for bacteria and/or yeast

Reproductive effects: No data available

Tetragenicity: No data available Epidemiology: No data available

Skin corrosion/irritation: Causes skin irritation

Serious eye damage/eye irritation: Causes serious eye irritation Specific target organ toxicity - single exposure: Not classified Specific target organ toxicity - repeated exposure: Not classified

Section 12: Ecological Information

Ecotoxicological data:

<u>Components:</u> <u>Test results:</u>

Anionic / non-ionic surfactants LC50 Algae: 1300 mg/ml

EC50 Daphnia: 1698 mg/ml LC50 Fish: >100 mg/ml

Persistence and degradability: Expected to be readily biodegradable

Bioaccumulation: Not established

Mobility in soil: Not available

Other adverse effects: Avoid release to open bodies of water

Section 13: Disposal Considerations

Disposal methods: Dispose of in accordance with label instructions and all applicable regulations.

Contaminated packaging: Dispose of in accordance with applicable federal, state and local regulations.

Section 14: Transport Information

In accordance with ICAO/IATA/DOT/TDG:

UN number: Not regulated

UN proper shipping name: Not regulated

F.M.-160 Page 5 of 7

Transport hazard classes: Not regulated

Packing group: Not regulated

Environmental hazards: Not regulated Transport in bulk: Not regulated Special precautions: Not available

Freight Description: Agricultural Foam Marker, Liquid, N.O.S.

ERG Guide No.: 171

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

Section 15: Regulatory Information

International inventories:

TSCA: Complies

EINECS/ELINCS: Complies

ENCS: Complies IECSC: Complies PICCS: Complies AICS: Complies

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Sections 311 and 312:

Immediate (Acute) Health Hazard: Yes Delayed (Chronic) Health Hazard: No

Fire Hazard: Yes Reactive Hazard: No

Sudden Release of Pressure Hazard: No

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Section 313:

• This product contains the following substances which are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and which are listed in 40 CFR 372.

Component:	CAS No.:	Weight (%):	SARA 313- Threshold values (%):
2-butoxyethanol	111-76-2	1-20	1.0

Section 16: Other Information

Drexel Chemical Company recommends that each customer or recipient of this SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown below. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the product are not under the control of the manufacturer, it is the buyer's/user's duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as

F.M.-160 Page 6 of 7

manufacturer-specific SDSs, we are not and cannot be responsible for SDSs obtained from any source other than ourselves. If you have obtained an SDS from another source or if you are not sure that the SDS you have is current, please contact us for the most current version.

Date Revised: November 9, 2017 Supersedes: November 10, 2014
