

“For over 15 years we have used Dylox in the spring and fall with very good customer satisfaction. We choose it over other products because we can use it to specifically target grubs right when the problem persists.”

Bill Bodkin, Operations Manager,
Funk Lawn Care, Tonawanda, NY

Dylox 6.2G

Armyworm, Cranberry girdler, Cutworms, Chinch bugs, Webworms, Annual bluegrass weevil, Mole crickets	4.6 oz. per 1,000 ft ²

WHAT IT IS.

An insecticide that provides rapid curative grub control in as little as 24 hours

WHAT IT GIVES YOU.

- Rescue treatment that kills second and third instar grubs on contact, as well as surface-feeding and soil insects like chinch bugs, annual bluegrass weevils and sod webworms.

WHY IT BEATS THE COMPETITION.

- Works later in the season with a longer effective application window
- Works faster than competitive curative products
- New 420 SL formulation is now labeled 'Caution'

HOW IT MAKES YOUR JOB EASIER

Dylox® saves the day as a rescue product, protecting lawns and turf from grubs and the pests that feed on them. But it's also a rotation tool for pest management programs - the kind that build an LCO's business, and keep a GCS's course healthy.

Dylox®

RELAX. YOU'RE BACKED BY BAYER.

Training. Troubleshooting. Innovating. Count on us to stand behind you now and for years to come. Get science and support at BackedbyBayer.com or 1-800-331-2867.

THE SCIENCE OF DYLOX® INSECTICIDE.

Dylox® works by both contact and ingestion. It rescues and protects lawns and turf from grubs and pests that feed on them. When watered properly, Dylox can even penetrate thatch up to 1/2 inch thick. Dylox is a great pest management tool for an LCO or GCS.

Dylox is available in 2 formulations: Granular (6.2G) and liquid (420 SL).

Controls grubs and more.

- White grubs
- Chinch bugs
- Annual bluegrass weevils (larvae and adult)
- Sod webworms
- Cutworms and armyworms

New easy-to-use 420 SL formulation.

- New label is now 'Caution'
- Easier to pour, measure, and mix
- Improved application distribution

Frequently asked questions.

- >Q When is the best time to use Dylox for grubs?
- >A Dylox is most often applied in late summer and fall to target second and third instar grubs. But it is also effective when applied in spring for overwintering grubs.
- >Q How quickly does Dylox work?
- >A Dylox kills damaging large-instar grubs in 1-3 days.
- >Q How is Dylox effective against chinch bugs and weevils?
- >A Dylox is very effective against chinch bugs, weevils and other surface feeders as a fast acting curative product. Dylox is a good alternative to pyrethroids, as part of a sound, rotational pest management strategy.
