

INTRODUCING ANOTHER INNOVATION BY VM:

EZ CONCEAL INSECT STATION

THE SMALL, DISCRETE & PERMANENT INSECT MONITORING DEVICE

- Pre-attached double-sided foam makes attaching to any surface EZ
- Low profile, covered station made to fit in tight spaces
- Uses the Catchmaster™ 72CRM glue board
 - Can be placed flat on floors, walls or ceilings
 - Great for residential or commercial accounts
 - Glue board comes out with the lid for easy service while the base stays permanent.
- Barcode attached to the lid makes scanning EZ
- Creates a seamless service for hard to reach places
- Glue board sinks into the base to create a deadfall for the insect
- Glue board included with initial purchase
