HOME PEST CONTROL FOR INDOOR & OUTDOOR USE

The active ingredients in EcoSmart® Home Pest Control consist of a blend of essential plant oils, making it an effective insecticide that is environmentally friendly. It is also safe for use around children and pets when used as directed. To learn more about this product and our entire line of pesticides, please visit us at www.ecosmart.com.

KILLS: Common household ants, cockroaches, crickets, and brown dog ticks.

DIRECTIONS FOR USE:
SHAKE WELL BEFORE EACH USE. READ ENTIRE LABEL AND USE ACCORDINGLY.

BEFORE YOU USE

- Ready-to-use. Do not dilute.
- Remove sprayer from holder and pull tubing out of sprayer handle. The tubing connector fits in the hole on top of the cap.
- This product contains plant oils which are inherently fragrant. For people and pets who are sensitive to fragrances, test a small application before using over a larger area.
- While staining is unlikely, as with most household products it is recommended to test for possible staining on an inconspicuous area on surfaces to be sprayed. A test duration of 48 hours or more is recommended. This product is not recommended for use on vinyl siding, or window or door casements made of vinyl moulding.

HOW TO USE – Shake Well Before Each Use

SPRAYING DIRECTIONS

- Turn nozzle to ON "Spray," or ON "Stream" position, before using.
- Hold container upright while spraying. Spray 6 inches from surface being treated.
- Spray until wet. For carpets and rugs, spray until damp.

FOR INDOOR APPLICATIONS:

Spray areas where listed pests are found, live and hide, including cracks and crevices in walls/cabinets, beneath and behind built-in appliances, sinks, cabinets, around plumbing pipes, garbage cans, window frames and doorways and in attics, basements and crawl spaces. Repeat as listed pests are seen. If applying in a pantry, it is recommended to remove items from pantry to allow best access.

FOR INDOOR CONTROL OF TICKS:

Thoroughly spray around resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where ticks may be present. Spray until damp but not soaking. Pet bedding should be replaced with clean, fresh bedding after treating area. Repeat as listed pests are seen.

FOR OUTDOOR APPLICATIONS:

If applying outside as a barrier treatment, remove debris and leaf litter from around the foundation, cut back vegetation and branches that touch the foundation/house and remove or rake back deep mulch, rocks or other potential pest harborage sites next to the foundation. Apply a 12 inch wide band around the exterior perimeter of your home. Apply up to a 2 feet wide band along the foundation, around window frames and doorways, around vents, openings where utilities enter home, and other entry points into home. Apply to problem areas such as around wood piles, storage sheds and other areas of pest infestation. Spray on ant trails and mounds. Spray until thoroughly and uniformly wet. Repeat as listed pests are seen.

PRECAUTIONARY STATEMENTS: This product is safe for use around children and pets when used as directed. Caution – Avoid contact with eyes, skin, and clothing and keep out of the reach of children. Breathing vapors and mists of this product may trigger breathing difficulty in asthmatics and others with allergies, physiological sensitivities or medical conditions susceptible to product ingredients. If irritation or difficulty breathing occurs and persists, then you should contact a physician.

FIRST AID: If swallowed: Call a poison control center or doctor for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

STORAGE AND DISPOSAL: Turn nozzle to off position. Store in original container in a cool, dry area and avoid excess heat. Keep from freezing. Do not reuse container. Offer for recycling if available or discard in trash.

LIMITATION OF LIABILITY: To the extent consistent with applicable law, Kittrich makes no warranties of merchantability or of fitness for a particular purpose, nor any other express or implied warranty except as stated above. Buyer assumes all responsibility for safety and use not in accordance with label, directions and precautionary statements.

This product has not been registered by the US Environmental Protection Agency. Kittrich Corporation represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act.
