

Introducing All-Natural

Equi-Stop
CLEAR

Safely Stops Horses from Chewing

Caution - *Hot* - Peppers

**All-Natural Food-Grade Mineral Oil and Chili Peppers
Long-Lasting, Edible –Stops even the Toughest Chewing
Finally a Food-Grade Product that Actually Works!
Veterinarian Tested and Approved**

I have applied this product to wood fencing on my farm. It immediately stopped all fence chewing. Actually our horses were still not chewing on the fence months later. In my equine vet practice I have applied it to the outside of bandages a couple of times now on "bandage chewers." Same result.....flat stopped them immediately. This is even more impressive since I have tried grocery store hot sauce products in the past with no effect at all.

Bob Peters DVM

**Great for Wood Fences – Stalls – Barns - Steel Gates -
Trees - Horse Trailers - Horses Tails and Bandages**

Manufactured by Bio-Repellent Scientific Industries
