GROOMING TIPS

- Spray a fine mist of Laser Sheen[®] Dazzling Shine & Detangler on your horse's coat, mane and tail until damp. Hand stroke in direction of hair and let dry. Then brush, towel or hand rub coat to finished look.
- Use Laser Sheen[®] Concentrate every time you bathe your horse to keep him looking clean and shiny up to a week.
- Spray Laser Sheen[®] Dazzling Shine & Detangler on your horse's mane and tail right after shampooing to keep hair tangle-free and more manageable with no static electricity.
- Several days before a show or other big event, shampoo your horse and apply Laser Sheen[®] product. This gives the coat's natural oils time to regenerate while the Laser Sheen[®] product prevents spots and stains.
- On show day, apply Laser Sheen[®] Dazzling Shine & Detangler to your horse's entire coat for a first place finishing touch.
- Keep a bottle of Laser Sheen[®] Dazzling Shine & Detangler spray handy for last minute touch-ups right before showtime.
- If your horse's mane or tail gets terribly tangled, use Laser Sheen[®] Concentrate to work out snarls and knots without pulling out or breaking a lot of hair.
- Apply Laser Sheen[®] Dazzling Shine & Detangler to white markings to keep those easily stained areas cleaner longer.

Save & Shine

Give your horse a first-class shine without paying a premium price. Laser Sheen[®] Concentrate costs less than the price of ShowSheen[®] and delivers top quality results. Try it yourself and see.
