

FMC

FameTM

**When your lawn is in the spotlight,
*Fame is for you.***

- Rapid foliar and root uptake with xylem and translaminar movement
- Fast penetration into leaf tissues and rainfast within 15 minutes
- Protection against root and foliar diseases in turf, including Brown Patch, Summer Patch, Pythium blight and other tough turf diseases

GROUP  FUNGICIDE

Fluoxastrobin Action is in the Spotlight

Broad Spectrum Disease Control for Lawn Care

- Protection against 25 major lawn diseases including brown patch, summer patch, zoysia patch and Pythium
- Up to 28 days preventative control when used as labeled at high rates¹
- Fluoxastrobin has systemic action through xylem and translaminar movement to deliver thorough, fast-acting disease protection and resist further growth of established fungi

¹ Under severe conditions shorter application intervals are needed for optimum control.
