

Bush Doctor® KANGAROO™ is a liquid root drench formulation for use on in-ground plantings, container gardens and hydroponic systems. Use Bush Doctor® Kangaroots™ on seedlings and mature plants throughout the growing season to enhance the proliferation of root mass development. Beneficial for fruits, flowers, vegetables, trees and shrubs.

Growing System:	In-ground gardens and container plantings	Hydroponic recirculating systems
How Much:	Mix 2 teaspoons (10mL) per gallon of fresh water.	Mix 1/2 teaspoon (2.5mL) per gallon of fresh reservoir water.
How to Use:	Drench soil or preferred medium thoroughly. Apply every other week throughout the vegetative and blooming cycles, particularly during the earlier stages of plant development.	Use in conjunction with FoxFarm fertilizers or any nutrient regimen. Flush system every two weeks.

For best results follow the FoxFarm nutrient feeding schedule available online at www.foxfarmfertilizer.com or at your nearest garden retailer. While you're there, be sure to check out FoxFarm's exceptional line of professional grow products.
