ferti·lome[®]

**COME AND
GET IT !!**
FIRE ANT KILLER

- Kills The Queen
- Kills The Mound
- Dead Ants In 24 Hours

ACTIVE INGREDIENT:

Spinosad (a mixture of spinosyn
A and spinosyn D) 0.015%

OTHER INGREDIENTS:..... 99.985%

TOTAL: 100.000%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for Precautionary Statements,
Directions for Use and First Aid Statements

NET WEIGHT 1 LB. (454 G)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful If Swallowed. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash thoroughly with soap and water after handling.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information concerning this product, call the poison control center 1-800-222-1222

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent runoff to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all directions carefully before applying this product.

HOW THIS PRODUCT WORKS

ferti•lome® Come And Get It II Fire Ant Killer is attractive and deadly to red imported fire ants (*Solenopsis invicta*) and harvester ants. Ants quickly find and pick up this bait, take it back to the mound, and feed it to the entire colony including the queen(s). Ants start dying in 24 to 36 hours with mound or colony destruction in 3 to 14 days. Broadcast applications may take longer.

Fire ant and harvester ant colonies are started by newly mated queen(s) that fly into an area, burrow into the ground and begin laying eggs. Several flights are common during the summer, often shortly after rains. It takes several weeks for new mounds to appear. Combining mound and broadcast applications eliminates or controls visible mounds and helps prevent new mounds from forming.

USE RESTRICTIONS

- Do not disturb mounds before, during, or after treatment.
- Do not water in bait.
- Do not water within 6 hours of a mound application or within 24 hours of a broadcast application.
- Do not apply to hardscape areas. For outdoor use only. Only for application to gardens and earthen areas around homes.

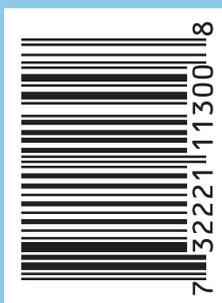

USE PRECAUTIONS

- Avoid mowing 1 day before and after application.
- If rain occurs within 6 hours of a mound application or within 24 hours of broadcast application, adequate foraging of the bait may not occur and re-treatment may be necessary.
- Kitchen utensils should not be used for measuring. Keep measuring utensils with pest control products away from children.
- Maintain the freshness and attractiveness of the bait by keeping the container tightly sealed in a dark and dry area and using the product within the season of purchase.

WHERE TO APPLY

- Home lawns
- Perimeter of home
- Around ornamental plants (flowers, shrubs and trees)
- Home gardens
 - asparagus
 - banana and plantain
 - bulb vegetables including dry bulb onion, garlic, great-headed (elephant) garlic, green onion, leek shallot, and welch onion
 - bushberries (including blueberry, currant, elderberry, gooseberry, huckleberry, juneberry, lingonberry, and salal)
 - caneberries (including blackberry, black raspberry, loganberry, red raspberry and cultivars and/or hybrids of these)
 - citrus (including grapefruit, lemons, limes, oranges, and tangerines)
 - cole crops (*Brassica* vegetables) (including broccoli, broccoli raab, Brussels sprouts, cabbage, cauliflower, cavalo, Chinese broccoli, Chinese cabbage (bok choy), Chinese cabbage (napa), Chinese mustard cabbage (gai choy), collards, kale, kohlrabi, mizuna, mustard greens, mustard spinach, and rape greens) Note: In the state of Georgia, do not apply **ferti•lome® Come And Get It II Fire Ant Killer** to: broccoli raab, Chinese cabbage (bok choy), collards, kale, mizuna, mustard greens, mustard spinach, rape greens.
 - cucurbits (including cucumber, edible gourds, muskmelons (cantaloupe, honeydew, etc.), pumpkin, summer and winter squash, and watermelon)
 - dates
 - fig
 - fruiting vegetables and okra (including eggplant, groundcherry, okra, pepino, pepper (except black), tomatillo, and tomato)
 - grape
 - herbs including angelica, balm, basil, borage, burnet, camomile, catnip, chervil (dried), Chinese chive, chive, cilantro (leaf), clary, coriander (leaf), costmary, curry (leaf), dillweed, horehound, hyssop, lavender, lemongrass, lovage (leaf), marigold, marjoram, nasturtium, parsley (dried), pennyroyal, rosemary, rue, sage, summer savory, sweet bay, tansy, tarragon, thyme, wintergreen, winter savory, woodruff and wormwood
 - leafy vegetables including amaranth, arugula, cardoon, celery, celtuce, chervil, Chinese celery, Chinese spinach, corn salad, cress, dandelion, dock, edible-leaved chrysanthemum, endive (escarole), Florence fennel, garden cress, garden purslane, garland chrysanthemum, head and leaf lettuce, leafy amaranth, New Zealand spinach, orach, parsley, radicchio (red chicory), rhubarb, spinach, Swiss chard, tampala, upland cress, vine spinach, watercress, winter cress, winter purslane, and yellow rocket
 - leaves of root and tuber vegetables including bitter cassava, black salsify, carrot, celeriac (celery root), chicory, dasheen (taro), edible burdock, garden beet, oriental radish (daikon), parsnip, radish, rutabaga, sugar beet, sweet cassava, sweet potato, tanier, true yam, turnip, turnip greens, and turnip-rooted chervil
 - peppermint and spearmint
 - pome fruits (including apples, crabapple, loquat, mayhaw, pears, and quince)

WHERE TO APPLY (Continued)

- potatoes and tuberous and corm vegetables (including arracacha, arrowroot, artichoke, bitter cassava, chayote root, Chinese artichoke, chufa, dasheen, edible canna, ginger, Jerusalem artichoke, leren, potatoes, sweet cassava, sweet potatoes, tanier, true yam, tumeric, and yam bean)
- root vegetables (including black salsify, carrot, celeriac, chicory, edible burdock, garden beet, ginseng, horseradish, oriental radish, parsnip, radish, rutabaga, salsify, skirret, Spanish salsify, sugar beet, turnip, turnip-rooted chervil, and turnip-rooted parsley)
- spices including allspice, anise (seed), annatto (seed), black caraway, caper (buds), caraway, cardamom, cassia (buds), celery (seed), cinnamon, clove (buds), common fennel, coriander (seed), culantro (seed), cumin, dill (seed), Florence fennel (seed), fenugreek, grains of paradise, juniper (berry), lovage (seed), mace, mustard (seed), nutmeg, poppy (seed), saffron, star anise, vanilla, and white pepper
- stone fruits (including apricots, cherries, nectarines, peaches, plums, and prunes)
- strawberry
- succulent and dry beans and peas (including adzuki bean, blackeyed pea, chickpea, cowpea, crowder pea, edible-pod pea, English pea, fava bean, field bean, field pea, garbanzo bean, garden pea, kidney bean, lentil, lima bean, lupins, mungbean, navy bean, pigeon pea, pinto bean, runner bean, snap bean, snow pea, sugar snap pea, teryary bean, wax bean, and yardlong bean)
- sweet corn
- tree nuts and pistachio including almond, beech nut, black walnut, Brazil nut, butternut, cashew, chestnut, chinquapin, English walnut, filbert (hazelnut), hickory nut, macadamia nut, pecan, and walnut
- tropical tree fruits including acerola, atemoya, avocado, biriba, black sapote, canistel, cherimoya, custard apple, feijoa, guava, ilama, jaboticaba, longan, lychee, mamey sapote, mango, papaya, passionfruit, pulasan, rambutan, sapodilla, soursop, Spanish lime, star apple, starfruit, sugar apple, ti leaves, wax jambu (wax apple), and white sapote

HOW TO APPLY

Mound Application: Sprinkle bait evenly over and around each mound in a 4-ft diameter circle. Apply gently to avoid disturbing ants.

Broadcast Application: Spread bait evenly over the infested area with a hand-held or ground driven rotary broadcast spreader.

HOW MUCH TO APPLY

Mound Application: Use 4 Tbs (tablespoons) for each mound. For mounds greater than 15 inches in diameter, use 6 Tbs per mound.

Broadcast Application: Use 1/3 to 2/3 cup for each 1000 sq ft, or 3 to 6 cups per 10,000 sq ft, or 2.5 to 15 lb per acre. Use higher rates for heavier infestations, faster activity, and greater overall control.

WHEN TO APPLY

Apply when ants are active (usually when temperatures are warmer than 60°F). The best time to apply is in the cooler early morning or late evening hours when fire ant and harvester ant foraging is at its peak. Mounds will usually be eliminated or destroyed in 3 to 14 days after treatment. Extremely large mounds may require a repeat application. Make a broadcast application every other month during the warm months to keep fire ants or harvester ants from establishing, starting, or forming new mounds.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool dry place out of the reach of children and domestic animals. Store in original container only.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-992-5994 for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, the seller warrants that this product conforms to the chemical description on this label and is reasonably fit for purposes stated on this label only when used in accordance with the directions for use. To the extent consistent with applicable law, this warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied.
