## Premium Plant Food

**ferti•lome® Start & Grow Premium Plant Food** contains premium slow release nitrogen and is designed for use at planting time as well as for use as a maintenance fertilizer. Apply every 3 to 4 months during the growing season to help maintain vigorous, beautiful plants and landscapes.

### APPLICATION

#### PATIO, INDOOR AND OUTDOOR CONTAINER-GROWN PLANTS

**New Plantings:** Mix the proper amount listed below with potting mix in the bottom of the container before setting plants.

**Established Container Plants:** Place the proper amount listed below around the top of each container. Lightly mix into the soil and water thoroughly.

Fertilize according to container size listed below. When fertilizing sensitive plants, plants grown indoors in the shade, or plants grown outdoors in the shade, always use the lower fertilizer rate. Sensitive plants include Rhododendrons, Azaleas, Ferns, Violets, Orchids, etc.
