Palm Tree Food

Fertilizer

Analysis: 10-4-10

UPC Number 7 32221 10726 7

Keeps you Palms a dark green with a special fertilizer with extra Magnesium, Iron, Manganese and Sulfur.

Application Rate:

- Apply inside the drip line, but away from trunk. Thoroughly water the area after application.
 - For Tall Growing Varieties: Apply ½ lb. per in. of trunk diameter.
 - For Low Growing Varieties: Apply ½ lb. per ft. of ht.
 - For Group Plantings: Apply 2 lbs. per 100 sq. ft.
 - For New Plantings: Apply at half the above rates.
- Repeat application every 6-8 weeks after the first application.
 - For each growing season, make up to 6 applications.
