

Gilbert®

# 711 Flying Lion™

Professional  
ELECTROCUTING  
FLYTRAP

**Superior Effectiveness.** The Flying Lion™ features a large reflector and open top which provide increased attractancy and access for all types of flying insects. *Mount Low* (about waist high, see *Strategic Installation*, pg. 4).

*For glueboard version of this industrial strength trap, see pg. 19.*

Features two Osram Sylvania F40/350BL (40 watt) Insect attractant lamps (Replace annually for continued performance).

Standard version beautifully finished in anodized aluminum. Guard door (double nickel-chromed) swings open for easy access to grid, reflective surfaces, and lamps for periodic cleaning and lamp replacement. Frame and interior structure made of aluminized steel (superior lifetime auto muffler material). Keyholes on back for corner or wall-mount installation (see illustration, pg. 5). **For Stainless Steel version (including guard door) order #711SS.**

Catch tray is secure; yet, easily removed for emptying.

Six foot, 3-wire grounded power cord. Standard 115v/60hz. Interlock switch automatically shuts off trap when guard door is opened.

**FIVE YEAR WARRANTY** (Excluding lamps only)!
