In the home all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

Clean up wastes materials, dust, dirt, and other debris, Thoroughly treat floors, walls and other surfaces in storage and handling greas, Apply dust in cracks and crevices, behind and under cupboards, and other difficult to reach areas where insects may hide. DO NOT apply directly on food utensils or other areas where food is prepared processed served or stored ORNAMENTAL PLANT PESTS

### For the control of:

Aphids	Elm Leaf Beetle	Plant Bugs
Beet Armyworms	Flea Beetles	Rose Chafer
Blister Beetles	Japanese Beetles	Rose Midges
Boxelder Bugs	Leafhoppers	Rose Slugs
Certain Leafminers	Leafrollers	Tent Caterpillars
(Boxwood, Holly Oak, Spruce Needle)	Orange Tortrix	Thrips
	=	Weevils

Shrubs and Ornamentals: Apply when insects or their damage first appear. Repeat after 10 days only if needed to maintain control. Do not apply more than 2 times per year. Apply to place a thin layer of dust on both upper and lower sides of leaves, stems and flowers.

Roses, Petunias, Chrysanthemums, Geraniums, Carnations and other related flowers: To control many leaf and flower chewing insects, apply as soon as the insect appears. Repeat after 10 days only if needed to maintain control. Do not apply more than 2 times per year. Apply a thin layer of dust on both upper and lower sides of leaves, stems and flowers.

# OUTDOOR USE

Perimeter Treatment: Use Hi-Yield® Multi-Use Dust as a residual treatment for control of Ants, Bees, Centipedes, Cockroaches, Crickets, Firebrats, Fleas, Ground Beetles, Millipedes, Scorpions, Silverfish, Slugs, Sowbugs, Spiders, Ticks and Wasps. Make a residual treatment around windows and doors, porches, screens, eaves, patios, garages, under stairways, in crawl spaces where pests are active and may find entrance. HOME VEGETABLE GARDENS: Dust lightly to cover both upper and lower leaf surfaces with a thin, even film of dust. Apply when air is calm to avoid drift and contact with eves and skin. Start applying at the farthest comer of the treatment area and work backward to avoid contact with dusted surfaces. Allow dust to settle in treated areas before reentering.
