Ammonium Sulfate 21-0-0

- A Great source of Nitrogen with the acidifying addition of Sulfur.
 - Use on Alkaline soils and soils with higher pH.
 - Use on Trees, Shrubs, Flowers and Vegetables.
- Use on Lawns for a quick, long lasting green. Covers up to 5,000 sq ft.
- This is the preferred fertilizer of Blueberries, providing the form of Nitrogen that they can use.

Always Water in After Application!

Always Read and Follow Label Directions
