### Engineering controls

Have eye wash facilities immediately available at locations where eye contact can occur.

### Eye protection

If there is potential for contact:

- Wear chemical goggles.
- Applicators and other handlers must wear eye protection.

### Skin protection

No special requirement when used as recommended.

If repeated or prolonged contact:

- Wear chemical resistant gloves.
- Chemical resistant gloves include those made of waterproof materials such as nitrile, butyl, neoprene, polyvinyl chloride (PVC), natural rubber and/or barrier laminate.

- Applicators and other handlers must wear:
  - Wear long sleeved shirt, long pants and shoes with socks.
  - Follow manufacturer's instructions for cleaning/maintaining Personal Protective Equipment.

- If no such instructions for washables, use detergent and hot water.
- Keep and wash personal protective equipment separately from other laundry.

### Respiratory protection

If airborne exposure is excessive:

- Wear respirator.
- Full facepiece/hood/helmet respirator replaces need for chemical goggles.
- Respiratory protection programs must comply with all local/regional/national regulations.

When recommended, consult manufacturer of personal protective equipment for the appropriate type of equipment for a given application.
