Granules

Repels dogs and cats from plants and flowers, trees, garden beds and planters, & more.

DIRECTIONS: Generously sprinkle granules in area you want dogs and cats to avoid. Long standing bad habits are harder to break, initial applications may need to be more frequent and heavier. Once habits are broken, reapply as needed to maintain avoidance, usually every 1-3 weeks.

May be used in conjunction with I Must Garden Dog & Cat Spray Repellent.

Recommended for outdoor use. If using indoors (example: to keep cats from digging in flowerpots) or in enclosed spaces, always test for odor acceptability. Use this granular formula when wishing to keep animals away from an area. To prevent them from chewing use our spray.

I Must Garden takes pride in providing safer alternatives for gardening and pest control. Our all natural products are safer around children and pets.
