

**CAUTION: PRESSING THUMB TRIGGER DISPENSES FUEL!  
DO NOT DEPRESS TRIGGER UNTIL SPOUT IS IN FUEL TANK**

## INSTRUCTIONS

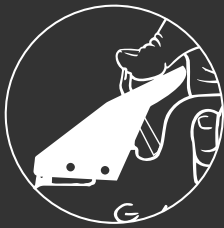

**1. Remove spout cap, press down and twist**

**2. Rotate spout into the fuel tank you are filling**

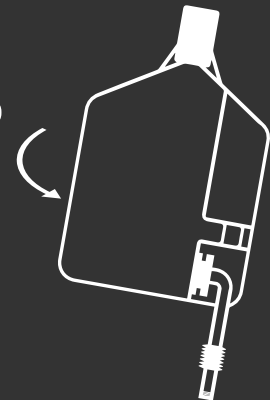

**3. To dispense fuel, pull back thumb safety trigger & depress fully**

**4. To stop dispensing fuel, release thumb trigger**

**5. Tilt Can sideways and towards spout to fully drain before proceeding to step 6. Make sure spout is rotated 180° from the stowed position. Ensure all residual fuel drains from the spout**

**6. Rotate spout to the upright position and replace spout cap**

**DO NOT POUR ON OR AROUND OPEN FLAME  
OR IGNITION SOURCES!**
