

# COMMANDER "TRI-JET" FOGGER

## Operating Instructions

The Commander Tri Jet Fogger is very user friendly for commercial or residential use. The first thing you want to do when you remove the unit from the box is to make sure the power switch is in the off position and the intake filter is clean and on the rear of unit to prevent damage to motor. After choosing the product you are going to spray remove tank from unit by releasing the four tank clamps. Make sure to follow ALL guidelines from the manufacturer of the product that will be used. Always wear proper safety equipment when in use. Fill tank to desired amount making sure not to over fill tank. Reattach tank to unit making sure rubber gasket is in place to prevent spillage and plug into proper power supply. When you are ready to start fogging turn unit on and adjust flow valve to desired spray amount making sure not to over fog which will cause damage to motor. When you are done fogging turn unit off and unplug from wall. Empty tank of any product that may have not been used and wash out with fresh water. Fill tank with warm fresh water and little detergent and reattach to unit and let run for few minutes outside to insure there is no product left in fogger this will prolong the life of your Commander Tri Jet Fogger. Always clean and dry intake filter after each use. When unit is clean, place back into box to protect from damage when not in use.

**The Commander "Tri-Jet" Fogger should only be used with approved chemicals. Always follow manufactures recommendations.**

## Operator Safety

The operator should always wear proper protective equipment. Always wear gloves and use a measuring cup when you are mixing a product to be fogged. Always wear eye protection while fogging. After fogging any chemical containing hazardous ingredients, provide complete ventilation. Various products have differing safety precautions. Always refer to the Material Safety Data Sheet (MSDS) for specific precautions. Do not expose to rain and store in doors. Do not spray towards open flame.
