

THIS PACKAGE CONTAINS 1 Dual Release Floral & Pheromone Lure.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For outdoor residential use. Do not use this product around ponds and/or bodies of water. See additional "DIRECTIONS FOR USE" inside package container.

TRAP ASSEMBLY:

- 1) Remove lure from box.
- 2) Slide vanes of trap together at open slots (to form an "X"). Make sure the ends slide into the channels of the vanes.
- 3) Attach the bag to the hooks on the vanes.
- 4) Peel foil covering off of the dual lure package, as marked on the package. Do not remove contents (lures). Position the dual lure plastic package so that the open (exposed) side faces inward toward the trap. Insert one edge of the lure package into one vane slot, then tip upward to insert into the opposite vane slot.
- 5) Your trap is now ready to hang and use.

PLACEMENT:

The hanger loop on the vane is used to suspend the trap. To be most effective, the trap should be located about 10 feet downwind of foliage to intercept beetles heading toward it. Do not place the trap near or in the foliage as it will attract more beetles into the foliage. (Experience has shown that a height of about 3 1/2 to 4 ft. intercepts large numbers of beetles). Traps work better in bright, open areas rather than shade.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Avoid contact with eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

If on skin or clothing:	If on skin or clothing: <ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with water for 15-20 minutes. • Call poison control center or doctor for treatment advice.
