KILLZALL 365 Concentrate

**Use on non-crop areas such as fencerows, driveways and around buildings
for total vegetation control for up to one year.**

Formulation: Glyphosate 43% and Imazapyr 0.78%

Application:

For Spot Control of Brush, Vines and Weeds: Mix 6 oz. of product per 1 gal. of water. Apply to actively growing brush and vines in late summer and fall. Thoroughly and uniformly spray foliage of woody plants to wet.

For Total Vegetation Control: Apply to actively growing nuisance weeds in early summer to prevent future growth and to have complete vegetation control for up to 1 year. Mix 7.4 fl. oz. (0.46 pints) of product with water to produce 1 to 10 gal. of spray solution. Uniformly spray the mix over areas where total vegetation control and bareground is desired. 7.4 fl. oz. of product within 1 to 10 gal. of spray solution should be applied to 1,000 sq. ft.
