

This product is most effective when plants are growing rapidly and least effective when dormant or suffering from stress.

DIRECTIONS FOR USE

Apply Only As Directed. Make 3 to 5 applications annually. Spray to the point of runoff.

READY-TO-SPRAY SHOWER NOZZLE INSTRUCTIONS

1. Make sure knob control lever is in "OFF" position, then connect sprayer to garden hose.
2. Turn water on at the faucet. To begin spraying, turn knob control lever to the "ON" position. The plant food mixes automatically with the water as you spray.
3. To stop spraying, turn knob control lever to the "OFF" position. Turn off water at the faucet. To relieve pressure, turn knob control lever to the "ON" position again before disconnecting the sprayer from the garden hose.
